## Dense Fog Advisory Issued for Stoddard County, Missouri

JANUARY 24TH 2024 BY DEE LOFLIN

### Dense Fog Advisory Issued for Stoddard County, Missouri

The National Weather Service in Paducah, Kentucky has issued a Dense Fog Advisory until Noon CST Thursday, January 25, 2024.

#### Affected Area

Portions of southern Illinois and southeast Missouri

#### Description

...DENSE FOG ADVISORY REMAINS IN EFFECT UNTIL NOON CST THURSDAY...  
WHAT...Visibility one quarter mile or less in dense fog. WHERE...Portions of southern Illinois and southeast Missouri. WHEN...Until noon CST /1 PM EST/ Thursday.  
IMPACTS...Hazardous driving conditions due to low visibility. ADDITIONAL DETAILS...The dense fog advisory covers most of southeast Missouri and southern Illinois. While portions of the region may experience visibilities above 1/4 mile this afternoon, they are expected to decrease again this evening. PRECAUTIONARY/PREPAREDNESS ACTIONS... If driving,

slow down, use your headlights, and leave plenty of distance ahead of you.

## Flood Watch Issued for Stoddard County, Missouri

---

JANUARY 23RD 2024 BY DEE LOFLIN

## Flood Watch Issued for Stoddard County, Missouri

Image not found or type unknown

The National Weather Service in Paducah, Kentucky issued a Flood Watch through Wednesday morning.

### **Affected Area**

Portions of southern Illinois, including the following areas, Alexander, Johnson, Massac, Pope, Pulaski and Union, western Kentucky, including the following areas, Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Livingston, Marshall and McCracken, and southeast Missouri, including the following areas, Bollinger, Butler, Cape Girardeau, Carter, Mississippi,

New Madrid, Ripley, Scott, Stoddard and Wayne MO

## Description

...FLOOD WATCH IN EFFECT FROM 6 PM CST THIS EVENING THROUGH WEDNESDAY MORNING... WHAT...Flooding caused by excessive rainfall is possible. WHERE...Portions of southern Illinois, including the following areas, Alexander, Johnson, Massac, Pope, Pulaski and Union, western Kentucky, including the following areas, Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Livingston, Marshall and McCracken, and southeast Missouri, including the following areas, Bollinger, Butler, Cape Girardeau, Carter, Mississippi, New Madrid, Ripley, Scott, Stoddard and Wayne MO. WHEN...From 6 PM CST this evening through Wednesday morning. IMPACTS...Excessive runoff may result in flooding of rivers, creeks, streams, and other low-lying and flood-prone locations. Flooding may occur in poor drainage and urban areas. Low-water crossings may be flooded. ADDITIONAL DETAILS... - After receiving around 0.5 to 1.5 inches of rain Monday night, another round of heavy rain is expected tonight through Wednesday morning. Another 1 to 2 inches of rain is possible, with locally higher amount possible across southeast Missouri. With the ground still frozen from the recent cold wave, excessive runoff from heavy rain is likely and will cause scattered flooding issues to develop in the Flood Watch area. - <http://www.weather.gov/safety/flood> PRECAUTIONARY/PREPAREDNESS ACTIONS... You should monitor later forecasts and be alert for possible Flood Warnings. Those living in areas prone to flooding should be prepared to take action should flooding develop.

## Special Weather Statement for Snow Accumulation

---

## Special Weather Statement for Snow Accumulation

Image not found or type unknown

**The National Weather Service in Paducah, Kentucky has issued a Weather Statement for Snow Accumulation**

**Issued By**

Paducah - KY, US, National Weather Service

## Affected Area

Stoddard County

## Description

...Accumulating Snow Chance Tonight... The first chance for a little snowfall is tonight, when a dusting of light snow is possible. While you might see some flurries before then, the best chance time period of seeing some white stuff accumulate just a little bit is between 6 PM and 3 AM tonight. A dusting up to an inch cannot be ruled out. Chances are lowest in the Ozarks and pick up as you head east from there, especially along and east of the Mississippi River. The better and best chance for accumulating snowfall comes Sunday night into Monday. At this time, chances for an inch or two of snowfall seem a pretty good bet for southeast Missouri and western Kentucky, with perhaps a dusting up to an inch north of there across much of southern Illinois and southwest Indiana.
