Winter Weather Advisory

*Written by  
Dee Loflin, SMT Writer*

**Dexter, Missouri** - We may just get another round of snow tonight. The National Weather Service in Paducah, Kentucky has issued a Winter Weather Advisory that will be in effect beginning at 3 pm this afternoon to 6 am CST Saturday. Accumulation of 1 to 3 inches of snowfall is expected across the area; however some sleet may be possible.

Travel conditions may become hazardous as snowfall increases into the evening hours. Temperatures will be near 32 degrees. Be prepared for snow covered roads and limited visibility while traveling.

Try to be prepared for weather-related emergencies, including power outages. Stock food that needs no cooking and store water in clean containers. Always have battery operated devices, such as flashlights, a NOAA Weather Radio and lamps. Keep extra batteries handy along with a first aid kit and cat litter or sand for icy walkways. Just a few items will go a long way once the power goes out.
