Winter Weather Advisory

DECEMBER 28TH 2012 BY DEE LOFLIN

Winter Weather Advisory

*Written by
Dee Loflin, SMT Writer*

Dexter, Missouri - We may just get another round of snow tonight. The National Weather Service in Paducah, Kentucky has issued a Winter Weather Advisory that will be in effect beginning at 3 pm this afternoon to 6 am CST Saturday. Accumulation of 1 to 3 inches of snowfall is expected across the area; however some sleet may be possible.

Travel conditions may become hazardous as snowfall increases into the evening hours. Temperatures will be near 32 degrees. Be prepared for snow covered roads and limited visibility while traveling.

Try to be prepared for weather-related emergencies, including power outages. Stock food that needs no cooking and store water in clean containers. Always have battery operated devices, such as flashlights, a NOAA Weather Radio and lamps. Keep extra batteries handy along with a first aid kit and cat litter or sand for icy walkways. Just a few items will go a long way once the power goes out.

Recycle Your Christmas Tree

DECEMBER 27TH 2012 BY DEE LOFLIN

[Recycle Your Christmas Tree](#)

*Written by
Dee Loflin, SMT Writer*

Dexter, Missouri - Did you buy a live tree this year for Christmas? Don't know what to do with your tree after the holidays? The Dexter Parks and Recreation Department has the solution.

They encourage residents to recycle their Christmas Trees, saving landfill space and disposal costs. They are accepting real Christmas Trees at the Dexter Pool parking lot now until the end of January.

You may bring your real tree and drop it off during the daylight hours. The trees must have all decorations, ornaments, tinsel, lights, and stands removed. These trees will be used as fish habitats and as shelter in the Dexter City Lake located on One Mile Road.

For more information about the Christmas tree drop-off site and program, contact the Dexter Parks and Recreation Department at 573-624-8244.

Christmas Angels at MoDOT

DECEMBER 27TH 2012 BY DEE LOFLIN

[Christmas Angels at MoDOT](#)

Dee Loflin, SMT Writer*

Sikeston, Missouri – If you thought the Missouri Department of Transportation (MoDOT) only performed highway maintenance and graded the roads during blizzards then you need to read about these wonderful MoDOT employees. For over 25 years, the Missouri Department of Transportation has helped grant Christmas wishes to Southeast Missouri families through the Christmas Angels Program.

“This program began decades ago with a crock pot of chili and the desire to help at least one child, “ said Transportation Project Designer Jeff Wachter. “With the help of area businesses, organizations and individuals, the program has grown. This year, we sold 1,495 bowls of chili and received many generous donations.”

Jeff said that the \$6,173 raised during this year’s event provided Christmas wishes to 120 Southeast Missouri children. MoDOT volunteers work with the Department of Family Services to identify needy children in the area.

“The program has grown locally and many businesses and organizations purchase chili for their employees,” said Kathy Hixson who is the Senior Design Technician at MoDOT. “Participants receive a hot lunch and help needy families at the same time.”

This event is a great example of teamwork. Current MoDOT employees and retirees work together and volunteer their time during the busy holiday season. Businesses or individuals wishing to donate to the Christmas Angels program may send or drop their donations by the Division, 10 Highway Employees’ Credit Union Office, located at 337 North Main Street in Sikeston, Missouri. Checks can be made out to the Christmas Angels Program. For more information about the Christmas Angels program, Contact Jeff Wachter at 573-472-5294 or Kathy Hixson at 573-258-0932.

Bloomfield Christmas Tournament Underway

DECEMBER 27TH 2012 BY UNKNOWN

Bloomfield Christmas Tournament Underway

Written by

Jessica Snider, SMT Writer

The 56th annual Bloomfield Christmas Tournament has just gotten underway this morning after being delayed due to yesterday's snowy weather conditions.

The game between the Kennett Indians and Richland Rebels is almost complete and is being broadcasted live by YHC (Your Hometown Channel.) If you're interested in viewing the games live from the comfort of your own home, you are welcomed to join the YHC team on channel 21 as the play by play is brought to you for each individual game of this year's tournament.

If you decide to travel to Bloomfield to be a spectator of the Annual Christmas Tournament, remember to take caution on the roads you use for traveling. The Street Departments have done a wonderful job of making our roads accessible, but it's always a good idea to be cautious, especially after having this much snow throughout the area.

Dexter is set to play Twin Rivers around 3:30 P.M. this afternoon. Whether you decide to stay in and watch it on YHC or travel to the Bloomfield gym, we hope you enjoy your day of the 56th annual Bloomfield Christmas Tournament.

Let It Snow! Let It Snow! Let It Snow!

DECEMBER 27TH 2012 BY DEE LOFLIN

Let It Snow! Let It Snow! Let It Snow!

*Written by
Dee Loflin, SMT Writer*

Dexter, Missouri - Everyone wishes for a white Christmas and this year was no exception. By 6 pm Christmas evening the Heartland was beginning to see some precipitation in the form of sleet and snow. Within just a few hours some folks were reporting the ground to be covered with a white glaze of sparkling snow. By morning most of the Heartland had five to eight inches of snow on the ground with snow drifts from three to four feet.

Southeast Missouri has never been known for its snow, there have many years we did not see any of the "white stuff". If we did, it mostly would not have amounted to anything

more than a light dusting. Students were already out for the holiday break so no huddling around the tv to watch the news in anticipation of school letting out. The real question most children wanted to know was "how much?" Will it be enough to build a snowman or a snow fort? Can we ride the 4-wheeler? Can I go outside and play?

</images/2012 Article Pics/Snowman 2.jpg>

For Landon King, a kindergarten student from Paducah, Kentucky, he saw his first real snowfall. What memories he will have of eating his first snowball and making his first snow angel! Children of all ages were outside yesterday throwing snowballs, building snowmen, riding 4-wheelers, slipping and sliding down hills and falling into the snowdrifts. What fun it was to watch them playing, laughing and having a great time just running around in the beautiful white blanket of snow!

Even college students like Lauren Dudley, a Freshman at the University of Arkansas, Jonesboro played in the snow. She was was home for the holidays spending time with her family. Instead of after holiday shopping, she took pleasure in building her very first snowman. With a carrot nose and some coal for eyes her little snowman was cute as it could be. Some folks went all out with building of their snowmen, with scarves, mittens, coal buttons and eyes and even a corncob pipe. The Blizzard of 2012 will last in the memories of many and it was a day filled with much fun for the young and old.
