Potential Severe Thunderstorms Tonight

Submitted by

Dee Loflin, SMT Manager/Writer

Dexter, Missouri – Make sure you turn your weather radios on before you go to bed tonight. We could see some severe thunderstorms after 3 a.m. along with some large hail and damaging wind gusts. There is always the possibility of tornadoes as well.

A 50% chance of showers tonight will be possible in the Dexter area with a low in the upper 60's.

Tomorrow additional severe thunderstorms are possible as the storm system advances very slowly to the East. Though isolated tornadoes will be possible, the main threats are large hail and damaging winds.

Tomorrow's forecast for rain is 60% with wind gusts up to 21 mph. Temperatures will be in the low 80's.

Stay tuned to your local t.v. station or KDEX radio in Dexter for weather alerts and updates.
