US 60/62 Bridge at Cairo Reduced Beginning Oct. 23

OCTOBER 22ND 2013 BY DEE LOFLIN

US 60/62 Bridge at Cairo Reduced Beginning Oct. 23

Submitted by Jill Temples

SMT Writer

Carbondale, Illinois- The District 9 Office of the Illinois Department of Transportation has announced that the structure carrying US Routes 60 and 62 traffic over the Mississippi River will be reduced beginning Oct. 23. The lane closure is expected to be in place weekdays until approximately Nov. 22. All traffic will be maintained by flaggers. Maintenance crews are scheduled to repair this structure.

This bridge is located south of the City of Cairo, Ill. (Alexander County, IL & Mississippi County, MO)

Emergency vehicles will be allowed through the construction site as quickly as possible. Through traffic should seek alternate routes, as delays will be expected.

For more information, please contact Keith Miley at (618) 549-2171

Operation Safe Driver Oct. 20-26

OCTOBER 18TH 2013 BY UNKNOWN

Operation Safe Driver Oct. 20-26

Submitted by Jill Temples

SMT Writer

Colonel Ron Replogle, superintendent of the Missouri State Highway Patrol, announces the Patrol will take part in Commercial Vehicle Safety Alliance's Operation Safe Driver during the week of October 20-26, 2013. Operation Safe Driver is an enforcement program that targets unsafe and aggressive driving by passenger and commercial motor vehicle drivers in order to raise awareness and make our roadways safer.

Each year more than 36,000 people die in traffic crashes throughout North America -- many of which are the direct result of unsafe and aggressive driving practices by both passenger and commercial vehicle drivers.

Troopers will be specifically targeting traffic violations that can lead to traffic crashes, such as speeding, following too close, use of a handheld mobile device (in commercial vehicles), and failure to signal when changing lanes or turning.

Motorists are urged to share the road, be courteous drivers, and pay attention—no matter what size vehicle they operate. Drivers of smaller vehicles are urged to take extra care when driving near commercial vehicles. Motorists should keep the following in mind:

Stay out of the No-Zone. No-Zones are actually blind spots where the car disappears from the view of the truck driver.

Stay visible! Large trucks need a much longer braking distance than a car. Don't cut into a truck's space. If this happens, it reduces a truck's much needed breaking distance and restricts evasive action.

Don't tailgate a truck. The further you are away from a truck the less likely you will be involved in a collision.

Don't speed. Obey all speed limits.

Allow plenty of room. Large trucks are almost as wide as your lane of travel. Driving too close behind one prevents you from reacting to changing traffic conditions and patterns.

Buckle up. Wearing your safety belt is the single most important thing you can do to save your life in a crash.

The Missouri State Highway Patrol's Commercial Vehicle Enforcement Division will be joined by the Kansas City Police Department Commercial Vehicle Unit, St. Louis Metropolitan Police Department's Commercial Vehicle Unit, and Missouri Department of Transportation's Motor Carrier Services for Operation Safe Driver.
