# Emily Brown is February Calendar Girl

---

FEBRUARY 03RD 2014 BY DEE LOFLIN

Emily Brown is February Calendar Girl

*Written by  
Dee Loflin, SMT Manager/Writer*

**Dexter, Missouri** - Emily Brown has been chosen as the February Calendar Girl.

Emily is the 18 year old daughter of Michael and Jenny Brown. She is a senior at Dexter High School and will be graduating in May.

She is involved in FCCLA, Student Council and the Pep Club. After high school she plans to attend Three Rivers College for one year and then transfer to Murray State University. She plans to major in Criminal Justice.

Miss Emily Brown is an attendant to Miss Dexter 2013 which is sponsored annually by the Dexter Senior High School Music Department. Each year the attendants are chosen as Calendar Girls throughout the year.

Congratulations Emily!

## February is National Earthquake Awareness Month

FEBRUARY 02ND 2014 BY DEE LOFLIN

February is National Earthquake Awareness Month

*Submitted by  
Dee Loflin, SMT Manager/Writer*

**Missouri** - This February will mark the 202nd anniversary of one of the largest earthquakes ever recorded in the continental United States, which was centered in the southeast Missouri town of New Madrid. The Feb. 7, 1812 earthquake is a key reason Missouri observes **Earthquake Awareness Month** each February and encourages residents to think about earthquake safety.

“Missouri experiences a wide range of natural disasters, from ice storms and blizzards to tornadoes and flooding, but an earthquake provides no warning and a major quake would have a large and long-term impact on our state,” said **State**

**Emergency Management Agency Director Michael Barrett.** “Earthquake Awareness Month is an excellent opportunity to learn about and prepare for a potential earthquake and many of the safety steps apply to other emergencies as well.”

On Oct. 17, 2013, more than 406, 000 Missourians participated in the **Great Central U.S. ShakeOut** earthquake drill, which teaches participants to "**Drop, Cover, and Hold On**" – drop to the floor, cover under a desk or table and hold on in the event of an earthquake. But there are other simple steps that people can take, particularly those who live in or near the New Madrid Seismic Zone.

- Put together an emergency kit, including a flash-light, first aid kit, radio, drinking water and blankets.
- Develop a family communication plan. Identify a relative living at least 100 miles away; everyone can call to “check in” to tell family you’re safe.
- Bolt bookcases to wall studs, install strong latches on cupboards and strap the water heater to wall studs—if it tips over it could start a fire or gas leak, and you could lose a valuable source of water.
- Know how to turn off your gas and water mains.
- Understand that earthquake coverage is not included in most homeowner insurance policies. It must be purchased as separate coverage, called an “endorsement.” This type of insurance requires that the earthquake is the direct cause of damage to the property. The Missouri Department of Insurance has more:  
<http://insurance.mo.gov/consumers/home/EQTable.php>

Missouri is home to the **New Madrid Seismic Zone**, centered in southeast Missouri and the nation's most active earthquake zone east of the Rocky Mountains. At least three of the largest earthquakes ever recorded in the continental United States are believed to have occurred in that area in 1811-12 – the largest of which occurred on Feb. 7, 1812.

Events scheduled during Earthquake Awareness Month include:

- Feb. 4 – The **Missouri Seismic Safety Commission** holds its quarterly meeting in Jefferson City at 10 a.m. in Room 494 of the Truman State Office Building, followed by a reception for the general public on the third

floor of the State Capitol at 1 p.m.

- Feb. 8 – The **St. Louis Science Center** will host an earthquake awareness day from 10 a.m. to 3 p.m., offering hands-on activities that teach participants how to prepare homes, families and businesses for earthquakes. The event is free and open to all ages.
- Feb. 22 - “The Earth Moves Under Our Feet” program from 10:30 a.m. to noon at **Onondaga Cave State Park** near Leasburg. Representatives from SEMA and the Missouri Department of Natural Resources' Missouri Geological Survey will present a program about earthquake history, preparedness, and impacts on society. A video about earthquakes in the Midwest will be shown. Admission is free. [Onondaga Cave State Park](#) is located seven miles southeast of the Leasburg exit off of Interstate 44 on Highway H.

SEMA has information about earthquake safety and resources, including videos, to help citizens prepare for an earthquake. Check out SEMA's Earthquake Preparedness Web page: [http://sema.dps.mo.gov/earthquake\\_preparedness/](http://sema.dps.mo.gov/earthquake_preparedness/).

In Missouri, a major New Madrid Seismic Zone earthquake would likely be felt throughout the state, as well as in nearby states to the south and east. Missouri has a comprehensive earthquake response plan in place to assist the 47 counties that likely would be impacted most directly. Visit the Department of Natural Resources' website for information about the science and history of earthquakes in the state at: <http://dnr.mo.gov/geology/geosrv/earthquakes.htm>.

## Why Groundhog Day?

---

FEBRUARY 02ND 2014 BY DEE LOFLIN

Why Groundhog Day?

*Submitted by  
Dee Loflin, SMT Manager/Writer*

**United States** - Have you ever wondered where Groundhog Day came from or why we celebrate a rodent emerging from his home after winter?

Each year on February 2nd, Groundhog Day is celebrated across the nation by millions of people wondering if the groundhog will see his shadow.

According to folklore, on this day if it is cloudy, when a groundhog comes out of its burrow, then spring will come early; if it is sunny and the groundhog sees its shadow and retreats back into its burrow, then winter will continue on for six more weeks.

On Groundhog Day, people participate in early morning celebrations and festivals to watch the groundhog emerge from its burrow.

- Southeastern Pennsylvania, Groundhog Lodges – Celebrates Groundhog Day with fersommlinge ( a Pennsylvania Dutch social event where food is served, speeches are made and one or more play or skit are performed for entertainment). Those who speak English at this event must pay a penalty as the Pennsylvania German dialect is the only language allowed to be spoken.

- Punxsutawney, Pennsylvania – Hosts the largest Groundhog Day celebration since at least 1886. Crowds have numbered 40,000.
- Other Pennsylvania Groundhog Day celebrations – Quarryville in Lancaster County – the Anthracite Region of Schuylkill County – The Sinnamahoning Valley – Bucks County.
- University of Dallas-Irving, Texas – Has Groundhog Day as an official university holiday and organizes a large-scale celebration every year. It is claimed to be the second largest Groundhog celebration in the world.
- The day is observed with various ceremonies at other communities in North America.
- The first documented American reference to Groundhog Day was found in storekeeper James Morris' diary entry dated February 4, 1841:

~~~

Last Tuesday, the 2nd, was Candlemas day, the day on which, according to the Germans, the Groundhog peeps out of his winter quarters and if he sees his shadow he pops back for another six weeks nap, but if the day be cloudy he remains out, as the weather is to be moderate.

#### **In Scotland, the poem:**

If Candle-mas Day is bright and clear,  
There'll be two winters in the year.

#### **An English poem:**

If Candle mas be fair and bright,  
Winter has another flight.  
If Candlemas brings clouds and rain,  
Winter will not come again.

(Wikipedia)

**Today may be a good day to watch the 1993 film  
"Groundhog Day".**

## MO National Guard Showcases State Emergency Response Missions

JANUARY 28TH 2014 BY DEE LOFLIN

MO National Guard Showcases State Emergency Response Missions

*Submitted by  
Dee Loflin, SMT Manager/Writer*

**Jefferson City, Missouri** - The Missouri National Guard has released an updated version of its state emergency mission history to include missions from 2013 and additional information on the Guard's 7th Civil Support Team.

The 45-page document that covers the Missouri National Guard and its militia predecessors' role in state emergency response efforts dating back to 1808, said Maj. Alan Brown, the Missouri National Guard's command historian.

"The National Guard is the only military component that has a dual state and federal mission," Brown said. "Historically, we've done a great job of recording our overseas deployments. As Citizen-Soldiers and Airmen, it's equally important that we record and remember what we do at home, too."

Originally released April 2013, the collection is a living document that is updated annually as the Missouri National Guard continues to answer the call to state service, Brown said.

The Missouri National Guard's rich history as a state response force dates back to August 1808, when Pierre Chouteau first organized a troop of cavalry at Yosti's Tavern in Saint Louis. Since then, the Missouri Militia, later the Missouri National Guard has answered the call of both the president and the governor in national defense as well as in times of emergency.

Missouri, located just east of tornado alley, containing two mighty rivers, resting on a 125 mile seismic fault line, and prone to bitterly cold and icy winters is no stranger to emergency response. When situations arise that stretch the ability of civilian response the Missouri National Guard is called upon by the governor to bring stability to affected regions. From reinforcing levies and removing debris to running traffic control points to performing radiation monitoring at the World Series, the Missouri National Guard is an effective and adaptable force that has remained 'Always Ready, Always There' for more than 200 years.

The state emergency duty/ active duty document alongside another document, the Missouri Global War on Terrorism report, highlights the National Guard's dual mission.

"As word gets out about our effort to catalogue our overseas and domestic deployments, our units are sharing more of their history," Brown said. "Our hope is that this will continue so our children and grandchildren know exactly what this generation of Soldiers and Airmen sacrificed for their state and nation."

The Missouri National Guard state emergency mission report can be found by visiting [MoGuard.com](http://MoGuard.com), clicking on the "Veteran/Retiree" tab and clicking on "Museum of Missouri Military History."

## Trevor Waldner Joins the Military

JANUARY 21ST 2014 BY DEE LOFLIN

Trevor Waldner Joins the Military

*Written by  
Dee Loflin, SMT Manager/Writer*

**Dexter, Missouri** - Everyone who joins the military has one thing in common, they must swear in by repeating the enlisted Oath. The Oath is something that every service member must promise and adhere to for his/her entire military career. Once you have taken the Oath you have chosen to defend our Country.

On Monday, January 20, 2014, Trevor Waldner, Dexter Senior High School student was sworn into the Army by General Mark Stammer who also has the distinguished honor of being Trevor's godfather.

After graduation in May, Trevor will travel to Fort Benning, Georgia in the Fall of 2014 to begin his military career.

Congratulations Trevor! We are very proud of you and thank you for choosing to defend our country and our freedoms!
