What is True Colors and what can it do for me?

True Colors® is a model for understanding yourself and others based on your personality temperament. The colors of Orange, Gold, Green and Blue are used to differentiate the four central personality styles of True Colors®. Each of us has a combination of these True Colors that make up our personality spectrum, usually with one of the styles being the most dominant. Identifying your personality and the personalities of others using True Colors provides you with insights into different motivations, actions and communication approaches. True Colors works because it is based on true principles and easy to remember and use – in all kinds of circumstances – from personal relationships to professional success.

Local Pill Disposal Set for Saturday at Dexter Police Station

Local Pill Disposal Set for Saturday at Dexter Police Station

Dexter, Missouri - On Saturday, September 26th from 10 a.m. to 2 p.m. the Dexter Police Department and the Drug Enforcement Administration (DEA) will give the public its tenth opportunity in five years to prevent pill abuse and theft by ridding their homes of potentially dangerous expired, unused, and unwanted prescription drugs.

Bring your pills for disposal to the Dexter Police station at 305 Cooper Street. (The DEA cannot accept liquids or needles or sharps, only pills or patches.) The service is free and anonymous, no questions asked.

Last September, Americans turned in 309 tons (over 617,000 pounds) of prescription drugs at nearly 5,500 sites operated by the DEA and more than 4,000 of its state and local law enforcement partners. When those results are combined with what was collected in its eight previous Take Back events, DEA and its partners have taken in over 4.8 million pounds—more than 2,400 tons—of pills.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse, and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs.

Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—both pose potential safety and health hazards.

For more information about the disposal of prescription drugs or about the September 26 Take Back Day event, go to the DEA Office of Diversion Control site or contact the Dexter Police Department @ 573-624-5512.
