Hunters Harvest 11,061 Deer During Alternative-Methods Portion

JANUARY 02ND 2016 BY DEE LOFLIN

Hunters Harvest 11,061 Deer During MO Alternative-Methods Portion of Deer Season

Jefferson City, Missouri - Preliminary data from the Missouri Department of Conservation (MDC) shows that deer hunters in Missouri harvested 11,061 deer during the alternative-methods portion of the 2015-2016 Missouri firearms deer-hunting season, which ran Dec. 19-29. Of the total harvest, 2,994 were antlered bucks, 1,594 button bucks, and 6,473 does. Top harvest counties were Franklin with 260 deer harvested, Howell with 247, and Texas with 235.

The harvest total for last year's alternative-methods portion was 11,067 and consisted of 2,851 antlered bucks, 1,503 button bucks, and 6,713 does.

For 2015 harvest totals by county and season portion, visit the MDC website and under "Telecheck: Deer and Turkey Harvest Data." For past season numbers, visit the same link under "Deer Harvest Summaries."

Deer hunting continues for this season with statewide archery hunting through Jan. 15 and the statewide firearms late youth weekend Jan. 2-3.

During the alternative-methods portion of firearms deer season, hunters are allowed to use muzzle-loading firearms, center-fire pistols, air-powered guns, bows, crossbows, or atlatls.

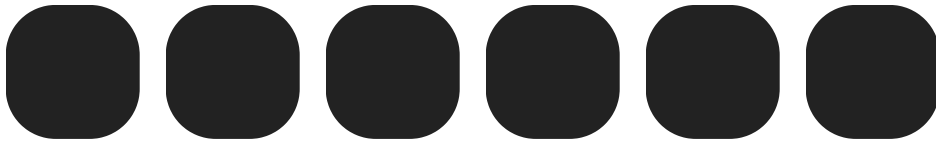

Missouri offers some of the best deer hunting in the country, and deer hunting is an important part of many Missourians' lives and family traditions. Deer hunting is also an important economic driver in Missouri and gives a \$1 billion annual boost to the state and local economies. For more on Missouri deer hunting, go online to the MDC website at www.mdc.mo.gov and click on Hunting/Trapping at the top of the home page.

Ohio River Bridge to Close at Midnight Thursday

DECEMBER 30TH 2015 BY DEE LOFLIN

Ohio River Bridge to Close at Midnight Thursday

Ballard County, Kentucky - The Kentucky Transportation will close the Ohio River “Cairo” Bridge and US 51 South of Wickliffe near the Ballard-Carlisle County line at midnight on Thursday, December 31, 2015.

According to Kentucky Transportation Cabinet District #1 they are required to close US 51 at the 6-mile marker between Wickliffe and the bridge at a little over 55 feet, thus cutting off access to the bridge.

There are about 5,000 plus cars and trucks that cross the bridge each day. Drivers are advised to plan ahead and consider alternate routes of travel.

Gov. Jay Nixon Declares State of Emergency in Missouri

DECEMBER 27TH 2015 BY DEE LOFLIN

[Gov. Jay Nixon Declares State of Emergency in Missouri](#)

Missouri - Gov. Jay Nixon today declared a state of emergency in Missouri as heavy rain, flooding and flash flooding continue to impact much of the state.

Heavy rains have led to widespread flooding and at least eight fatalities have been reported. More heavy rain and additional flooding is expected through Monday, and river levels are forecast to continue to rise over the next several days.

Since the latest round of severe weather began, the Missouri State Highway Patrol has conducted dozens of water rescues, and assisted in the evacuation of residents from flooded areas. Multiple roadways have been closed due to floods and the Governor urged Missourians in flood-affected areas to avoid travel if possible.

“Widespread flooding and continued rainfall are causing very dangerous conditions across much of central and southern Missouri,” said Gov. Nixon. “Multiple fatalities due to flash flooding have already been reported, and I urge Missourians in flood-affected areas to stay alert, avoid travel if possible and never drive into a flooded roadway. With more heavy rain expected tonight and tomorrow, state emergency management personnel will be working around the clock to keep Missourians safe.”

The Governor also urged residents to use caution in northern Missouri, where snow and freezing rain are expected as temperatures drop and wind gusts increase.

The State Emergency Operations Center has been actively monitoring the storm system, and Gov. Nixon has been receiving updates from his emergency management team to assess the current weather situation and address local needs. The team includes senior officials from the Missouri Department of Public Safety, Missouri National Guard, Missouri State Highway Patrol and the State Emergency Management Agency. The Missouri State Emergency Operations Plan also has been activated, allowing state agencies to coordinate directly with local jurisdictions to provide emergency services.

The Governor urged residents of flood-affected areas of Missouri to pay close attention to weather warnings and follow the safety instructions of local officials as the potential for additional dangerous flooding continues. Missourians, especially motorists, are encouraged to remember these important safety tips on flooding and high water:

- Do not walk through moving water. Six inches of moving water can make you fall. If you have to walk in water, walk where the water is not moving. Use a stick to check the firmness of the ground in front of you.
- Do not drive into flooded areas. If floodwaters rise around your car, abandon the car and move to higher ground if you can do so safely. You and the vehicle can be quickly swept away. Six inches of water will reach the bottom of most passenger cars, causing loss of control and possible stalling.
- A foot of water will float many vehicles. Two feet of rushing water can carry away most vehicles, including sport utility vehicles and pick-ups. Even if the water appears shallow enough to cross, don't try it. Water hides dips in the road. Worse yet, there may be no road at all under the water. Flooding can scour away the entire road surface and a significant amount of ground beneath.

Missourians who need disaster information, shelter information, and referrals are urged to call 211. The 211 service is now available throughout Missouri.
