If you would like to know more about Parents as Teachers contact Courtney McGarity or Casey Arnold at 573-293-5335, ext 293 or find them on Facebook by clicking [HERE](#).

The following information was taken directly from the Parent as Teachers Missouri website. For more information click [HERE](#).

Our Vision

All children will learn, grow and develop to realize their full potential.

Our Mission

To provide the information, support and encouragement parents need to help their children develop optimally during the crucial early years of life.

Our Values

The early years of a child's life are critical for optimal development and provide the foundation for success in school and in life.

Parents are their children's first and most influential teachers.

Established and emerging research should be the foundation of parent education and family support curricula, training, materials and services.

All young children and their families deserve the same opportunities to succeed, regardless of any demographic, geographic or economic considerations.

An understanding and appreciation of the history and traditions of diverse cultures is essential in serving families.

History

In 1981, Missouri pioneered the concept of helping parents embrace their important role as their child's first and best teacher. Today, Parents as Teachers continues to equip early childhood organizations and professionals with information and tools that are relevant—and widely applicable—to today's parents, families and children.

The Parents as Teachers leadership team and Board of Directors is engaged in a three-year [strategic plan](#), which positions the organization as a valued partner to support the organizations and professionals who serve families and children, especially those most vulnerable.

The concept for Parents as Teachers was developed in the 1970s when Missouri educators noted that children were beginning kindergarten with varying levels of school readiness. Research showed that greater parent involvement is a critical link in the child's development of learning skills, including reading and writing.

Early childhood professionals suggested that a program to provide early detection of developmental delays and health issues, and parent education to help parents understand their role in encouraging their child's development from the beginning could help improve school readiness and parent involvement.

With funding from the Missouri Department of Elementary and Secondary Education and The Danforth Foundation, Parents as Teachers began in 1981 in Missouri as a pilot project for first-time parents of newborns. Recognizing the program's benefits and cost effectiveness, the Missouri legislature provided state funding in 1985 to implement Parents as Teachers programs in all Missouri school districts. Since 1985, Parents as Teachers has expanded to all 50 states and six other countries.

More Than Just a Fundraiser

FEBRUARY 09TH 2016 BY DEE LOFLIN

More Than Just a Fundraiser

Bernie, Missouri - There is one great thing to be said about coming from a small town. Everyone knows you and everyone cares for each other. There is closeness and a shared energy of togetherness that small communities have that can't compare to living in the big city. Once a Bernie Mules forever a Bernie Mule!

Bernie families came out in force a few weeks ago to honor and raise money for former Bernie Mule basketball athlete and graduate, Shawn Green. So many people cooked, cleaned, and raised money with a silent auction, bake sale, and other countless ways they volunteered to make January 22nd a very special night to remember.

Shawn suffers from a rare brain cancer and though he continues to fight daily, so much of his treatment is not covered by his standard health insurance, but he is more determined than ever to beat this.

“The final fundraising total for the Hoops for Hope event benefiting Shawn Green was \$22,955.56,” commented head basketball coach Brad Botch. “The event was a tremendous success and so many people helped out for such a great cause!”

Approximately \$2,200 was raised for Avery's education fund as well. “Thank you to everyone who donated and made this such a memorable and successful event,” continued Botsch.

“My family has had a few weeks to think about what truly transpired on January 22, 2016,” commented Shane Green, brother to Shawn. “And we still can’t quite fathom all of it. The amount of time, energy, effort, generosity, and compromising that went into planning the event was truly remarkable.”

“It was supposed to be Homecoming night and the administration chose to move it to a later date, the fish fry in the cafeteria was all donations, the decorating the gym with the signs, old newspaper articles (that really made Shawn and I smile because of all the great memories), the silent auction, Avery’s education fund AND the countless number of people who volunteered their time to make the night truly special for our family and especially Shawn was unbelievable!”

“Erin and I can’t thank all of you enough as we will be forever grateful,” Shane Green.

If anyone still wants to donate to the Hoops for Hope account benefiting Shawn Green, it will remain open at the Bank of Advance in Dexter. You can mail or drop by your donation to that location at 1428 W. Business US Highway 60, Dexter, MO 63841 or you can call the bank at (573) 624-1500.
