Faith Lutheran Church to Host FCA Breakfast

SEPTEMBER 15TH 2016 BY DEE LOFLIN

Faith Lutheran Church to Host FCA Breakfast

Dexter, Missouri - The Faith Lutheran will host the Fellowship of Christian Athletes breakfast. Athletes should be ready to eat at 7:20 a.m. and will have plenty of time to get to school on time.

This is a great opportunity for all athletes to get involved.

The Faith Lutheran Church is located 1002 Saddle Spur Road, Dexter behind the Bearcat Event Center.

The FCA Vision:

To see the world impacted for Jesus Christ through the influence of coaches and athletes.

The FCA Mission:

To present to coaches and athletes, and all whom they influence, the challenge and adventure of receiving Jesus Christ as Savior and Lord, serving Him in their relationships and in the fellowship of the church.

The Four C's of Ministry:

Coaches Ministry, Campus Ministry, Camp Ministry and Community Ministry

The FCA Values:

Our relationships will demonstrate steadfast commitment to Jesus Christ and His Word through Integrity, Serving, Teamwork and Excellence.

Integrity

We will demonstrate Christ-like wholeness, privately, and publicly.

Serving

We will model Jesus' example of serving.

Teamwork

We will express our unity in Christ in all our relationships.

Excellence

We will honor and glorify God in all we do.

Below is the 2016 Church Breakfast Schedule

September 23rd - First United Methodist Church

September 30th - Risen Church

October 7th - Lighthouse Christian Center

October 14th - Liberty Hill (at First Baptist Church)

October 21st - Sacred Heart Catholic Church

Joshua Ladd Enrolls at Fort Lewis College

SEPTEMBER 15TH 2016 BY DEE LOFLIN

Joshua Ladd Enrolls at Fort Lewis College

Durango, Colorado - Joshua Ladd, a 2016 Dexter High School graduate, began his coursework at Fort Lewis College in Durango on August 26, 2016.

Among his achievements in high school, Ladd continually excelled in art classes under the direction of Clint Twaddell. He claimed several awards for his artistic talents during his career at Dexter High school and is majoring in Studio Art at Fort Lewis College.

Fort Lewis College offers a blend of small classes and academic programs, and a liberal arts perspective that promotes learning experiences that foster entrepreneurship, leadership, creative problem solving, and life-long learning.

Register Online to Earn a Congressional Award

SEPTEMBER 13TH 2016 BY DEE LOFLIN

Register Online to Earn a Congressional Award

Missouri - The Congressional Award is the highest honor Congress bestows upon young people and offers a non-competitive opportunity for you to realize their own potential. With over 43,000 registered participants and more than 5 million hours of community service completed in pursuit of the Award established in 1979, this program nurtures a dedication to both public service and personal growth.

Participants register for the program online at www.jasonsmith.house.gov and then work with an adult advisor they choose to set goals in four program areas: Voluntary Public Service, Personal Development, Physical Fitness, and Expedition/Exploration. Upon successful completion of the program requirements, participants are presented in state and local ceremonies with a Congressional Award certificate or medal - Bronze, Silver, or Gold.

Jason Smith is actively seeking youth ages 14 - 23 in the 8th Congressional District to enlist in the Congressional Award Program. There are no minimum grade point average requirements and the program accommodates youth with special needs and disabilities. Students already engaged in after-school activities that provide community service, improve academic skills, or develop athletic abilities may use these and many other pursuits to qualify for this special honor. Please let your students know about this award and the process to attain in.

To find out more, please to to www.jasonsmith.house.gov or contact a district office. Jason looks forward to seeing the many wonderful contributions the 8th Congressional District Award participants will make through their citizenship and service.

Dexter R-XI Schools Receive \$10,000 Grant

SEPTEMBER 13TH 2016 BY DEE LOFLIN

[Dexter R-XI Schools Receive \\$10,000 Grant](#)

Local Farmers Help Dexter RXI Win \$10,000 Grant to Improve STEM Education

Grant from the America’s Farmers Grow Rural Education Program, sponsored by the Monsanto Fund, will provide enhanced learning opportunities for Dexter High School students to develop important and leading skills – helping to shape the future of agriculture

Dexter, Missouri - To feed the world's rapidly growing population and tackle many other global challenges, our country's next generation of leaders will need to be highly skilled in the areas of science, technology, engineering and math (STEM). That's why the America's Farmers Grow Rural Education Program, sponsored by the Monsanto Fund, has awarded the Dexter R-XI School District with a \$10,000 grant.

The Dexter R-XI school district plans to use the funds to purchase high-tech probeware. The goal of the project is to increase student knowledge, skills, enrollment, and retention in STEM classes as they engage in activities, projects, and real world challenges. Students in science, math, and agriculture courses will use state-of-the-art equipment to explore concepts and linkages among STEM disciplines.

Earlier this year, farmers in the Dexter Community, nominated the district for consideration. After the nomination, the district developed its submission to enhance its STEM education offering through Maximizing Efficiencies in STEM teaching and Learning through Integrated Equipment.

Farmers who nominated Dexter were Darrel Pyle, Scott Wethington, Larry Brown, Erin Brown, Eric Mouser, Pam Mouser, Tom Hampton, Jennifer Hampton, Randy Niehaus, Pearl Niehaus, Allen Rowland, Tonda Rowland, Chris Rowland, and Ron Edwards.

Our short term goals for students include increased critical thinking, decision making, and problem solving skills as well as increased workplace skills such as collaboration and teamwork. Students will also increase their skills using the scientific method for studying concepts and laws, and the engineering design process for developing new approaches and products. For example, in physics labs groups of students may apply the scientific method to discover and test the theory underlying trajectories. By applying the engineering design process, students may plot trajectories of rocket launchers and use motion sensors to gauge results and guide the development of more cost effective prototypes of rockets and launchers. Other examples of learning activities include biology students preparing slides of plant samples to compare results relative to different growing conditions. In chemistry, students may study soil samples to determine the chemical content of soil treated with fertilizers and pesticides. Students will also make at least one field trip to a farm and observe differences in agriculture science practices for different crops. Finally, students will also participate in peer tutoring with younger students to extend their learning.

A group of science and math teachers reviewed each submission and selected Dexter R-XI as a finalist.

Next, the Program's [Farmer Advisory Council](#) , which is composed of approximately 30 farmer leaders from across the country with an interest in agriculture and education, selected Dexter R-XI for one of the Grow Rural Education Grants. Grant applications were judged based on the merit of the application, need and community support.

The America's Farmers Grow Rural Education program began in 2011. Since 2011, more than \$11 million has been awarded to over 700 rural school districts to enhance STEM education. For a complete list of winners and to learn more about the America's Farmers Grow Rural Education program, visit www.GrowRuralEducation.com .

About America's Farmers

The America's Farmers campaign highlights the importance of modern U.S. Agriculture through communications and community outreach programs that partner with farmers to impact rural America. To learn more, visit America's Farmers at www.AmericasFarmers.com .

About the Monsanto Fund

The Monsanto Fund, the philanthropic arm of Monsanto Company, is a nonprofit organization dedicated to strengthening the communities where farmers and Monsanto Company employees live and work. Visit the Monsanto Fund at www.monsantofund.org .
