They provide them with CHOICES, OPPORTUNITIES, and ACHIEVEMENTS. The Mother-to-Mother mentoring program works with the young women through their pregnancy and the first year of their child's life.

They hold regularly scheduled activities where the girls can participate in programs that promote the physical and social growth of both parent and child.

They introduce participants to additional services in the community that can help them make choices that will bring about a better life for them. After Phase I (pregnancy) and Phase II (baby's first year) the girls may choose to remain in the program and contract with them to enter Phase III.

In Phase III she may retain all the benefits of the program, if she agrees to continue her education or obtain employment. They believe that education will insure a brighter, more secure future for the young families by reducing the level of poverty.
