Endangered Person Advisory Issued for 7 Year Old Boy

DECEMBER 13TH 2016 BY DEE LOFLIN

Endangered Person Advisory Issued for 7 Year Old Boy

Chillicothe, Missouri - An Endangered Person Advisory has been issued for a missing 7-year-old from Chillicothe MO. Seth Davis was last seen during a custody exchange at a Wal-Mart at 6pm on December 2, 2016.

Police say that his father, Anthony Davis, 32, was supposed to return the child on December 4th and never showed up. His cell phone was pinged in the Washington Missouri area on December 6th and 7th. Anthony suffers from a mental health issue and is believed to be off of his medications.

Seth Davis, is described as a white, male, age 7, height 4?, 50 lbs, brown hair, blue eyes, wearing unknown clothing. Anthony D. Davis, is described as a white, male, age 32, height 5'11", 130 lbs, brown hair, hazel eyes, wearing unknown clothing.

The father and son may be traveling in a dark red 1998 Dodge Durango bearing Missouri plates, SM4G3N.

Anyone seeing the missing person should call the Gallatin Police Department at 660-663-9512.

Cold Weather Changes Demand Caution When Driving

DECEMBER 09TH 2016 BY DEE LOFLIN

[Cold Weather Changes Demand Caution When Driving](#)

Missouri’s weather forecast changes regularly, especially when winter is approaching. Depending on where you live in Missouri, the weather may be sunny, foggy, or include rain, hail, sleet, ice, or snow! The Missouri State Highway Patrol encourages motorists to plan ahead and drive safely or not at all during inclement weather. Winter weather will

affect driving conditions and traffic patterns. Please remember to buckle up, stay alert, be courteous, and obey all traffic laws.

Section 304.012 RSMo. directs motorists to exercise the highest degree of care while driving on Missouri's roadways. When inclement weather hits, please adjust how you drive, so that you continue to "exercise the highest degree of care." For instance: Stopping quickly in the winter on snow-covered or icy roads is next to impossible. Use care by increasing your following distance as you drive. Ask yourself if the speed you're traveling is safe for the weather conditions. Slow down when driving in snow or on ice. Driving the speed limit may not be "exercising the highest degree of care" during inclement weather; driving over the speed limit never is.

Take time to make sure your vehicle is in good working condition before winter arrives and before you travel. The Missouri State Highway Patrol suggests keeping your fuel tank at least half full. Place an ice scraper, tire chains, battery booster cables, blankets, extra coats, gloves, water, non-perishable food, flashlight, and a bag of sand or cat litter in your trunk. Emergencies cannot be predicted, but planning ahead can help you if one should arise. Missouri's Road Condition Report (1-888-275-6636) can help you plan your route--before you leave. You may also view MoDOT's Road Condition Map by going to the Patrol's website www.mshp.dps.mo.gov and clicking on the Road Condition icon. When road conditions become slick from ice and snow the Patrol encourages motorists to refrain from driving unless absolutely necessary.

Take the time to make sure the windows are completely cleared to ensure visibility. Clear your driveway so that your vehicle enters the roadway safely. Allow extra driving time for you to reach your destination at a slow, safe speed. Remember: Missouri law states if you're using your windshield wipers, your headlights must be turned on. It takes only a second to turn on your vehicle's headlights. That second could make you more visible to other drivers and prevent a traffic crash.

If you have a cell phone, make sure it's fully charged and with you when you travel. Please do not use your cell phone when you are driving; park your vehicle well off the roadway or in a parking lot before placing a call. The Missouri State Highway Patrol emergency number is 1-800-525-5555 (or *55 on a cellular phone). These numbers ring at the nearest troop headquarters.

The only 100 percent survivable traffic crash is the one that never happens. Make sure everyone in the vehicle is properly restrained in a seat belt or child restraint. Every day as we travel on Missouri's roadways, we trust that every driver on the road is going to obey

the speed limit, pay attention, and drive sober. “Don’t Violate The Trust.”

Interstate 55 Reduced for Bridge Maintenance

DECEMBER 08TH 2016 BY DEE LOFLIN

Interstate 55 Reduced for Bridge Maintenance

Southbound I-55 in Pemiscot County will be reduced as contractor crews perform bridge maintenance.

This bridge is located north of the Route A interchange.

Weather permitting, work will take place Monday, Dec. 19 through Saturday, Dec. 31 from 7 a.m. to 5 p.m. daily.

The work zone will be marked with signs. Motorists are urged to use extreme caution while traveling near the area.

For additional information, contact MoDOT's Customer Service Center toll-free at 1-888-ASK-MODOT (1-888-275-6636) or visit www.modot.org/southeast.

Motorists reminded to move over for responders Traffic incident response awareness week, Nov. 14-18

Stoddard County, Missouri - Every minute of every day emergency responders across Missouri work tirelessly to help save lives at the scene of traffic incidents. Across the country every year hundreds of emergency responders representing fire, law enforcement, emergency medical services, towing and transportation agencies are struck and either injured or killed while responding. The Federal Highway Administration has declared Nov. 14-18, 2016, as the first national Traffic Incident Response Awareness Week. MoDOT and its partners including the Missouri State Highway Patrol remind motorists to move over for any vehicle with flashing lights on the highway.

MoDOT and the State Patrol work every day to maintain a safe and reliable transportation system for Missourians. Traffic incidents on the roads jeopardize that and therefore MoDOT's emergency response crews work to keep our system moving every day. In an average month, MoDOT emergency crews respond to 5,500 traffic incidents.

"MoDOT and its partners in law enforcement, fire, EMS and the tow industry work

together to clear incidents but we need the help of motorists," said MoDOT Chief Engineer Ed Hassinger. "Move over when you see responders on the road and give them extra space to work. They are out there trying to clear the road for you so give them space to work."

Missouri's Move Over law requires drivers to change lanes when approaching MoDOT vehicles, law enforcement vehicles and any other emergency vehicle with lights flashing. If drivers can't change lanes safely, they must slow down as they pass the emergency vehicles.
