Students and Parents Attend High School Chemical Abuse Policy Meeting

OCTOBER 24TH 2017 BY DEE LOFLIN

Students and Parents Attend High School Chemical Abuse Policy Meeting

Dexter, Missouri - On Monday, October 23, 2017 the Dexter R-XI School District held a mandatory meeting at the Bearcat Event Center for students and parents who wished to participate in MSHSAA related activities and sports to discuss the new Student Chemical Abuse policy which was passed by the School Board earlier this year. The new policy will go into effect on January 1, 2017 and is spelled out in its entirety in this article.

Since the June 1995 the U. S. Supreme Court ruled in support of random interscholastic student athlete drug testing, more schools than ever before have begun either mandatory, reasonable suspicion or voluntary types of drug testing as they battle drug abuse by their students. This is not a new deterrent, it's been around for almost 23 years in both public and private schools.

In Oregon in 1995, Veronia School District 47j v. Acton (1995) , the Supreme Court upheld a local school board policy in Oregon that validated the constitutionality of a random drug testing regime implemented by the local public schools. Student athletes were required to submit to random drug testing before being allowed to participate in sports. During the season, 10% of all athletes were selected at random for testing. The Supreme Court held that although the tests were searches under the Fourth Amendment, they were reasonable in light of the schools' interest in preventing teenage drug use (Skidmore, 2004).

There have been a few court cases over the year, but the U.S. Supreme Court and each state's Supreme Courts have always upheld the fact that students who volunteer to participate in extracurricular activities can be subjected to random drug testing with proper policies in place.

In June 2002, the U.S. Supreme Court broadened the authority of public schools to test students for illegal drugs. The court ruled to allow random drug tests for all **middle** and high school students participating in competitive extracurricular activities. Again nothing new to school districts as this law has been in place for nearly 16 years.

Mr. C.A. Counts, Superintendent of Dexter Public Schools welcomed a nearly packed Bearcat Event Center and discussed the new policy reassuring the audience that this was a not punitive policy, but a way for students to seek help from a counselor or to help students say "no" when under severe peer pressure to try new drugs.

"Most of the schools in this area already have a plan in place," commented Counts. "We are actually one of the last schools in our area to do so and there is only one other school in Stoddard County that does not have a plan in place."

"For those students who are under extreme peer pressure, this is a nice release," continued Counts. "The student can say, 'I can't do this because I am in a Sport, Scholar Bowl or Band.'"

Gavin Miller, Assistant Superintendent went over the Random Drug Testing selection process, testing, and if students are under medical treatment.

"If your student is taking prescribed medicine from a doctor, we don't need that information right now," stated Miller. "Only if the test comes back positive, then we will need something from the doctor stating what medication is prescribed. So there is no need to contact the nurse or our office every time you get a prescription, only if the test is positive."

Aaron Pixley, Athletic Director/Activities Director spoke next about confidentiality of the policy and consequences if a positive test occurs.

"The test results will NOT become part of the student's permanent record nor on their transcript. We won't be getting the police involved for a positive result as well," Pixley said. "I have two children in a school that has random drug testing. One has never been tested the other has been tested 4 times, so it is very random."

"The drug testing company will not even know your child's name. They are given a number and those numbers are selected by a computer," continued Pixley. "All tests will

be kept confidential and will be kept separate from the mandatory school files required for each student."

Here are some questions that were answered during the meeting:

1. Why can't you test the entire school population? Answer: By law we can not test the entire school, teachers, or coaches. If they are in an extracurricular activity we can. Teachers and coaches are subject to a drug test when they are hired.
2. What happens if the test is positive? Answer: Each urine sample is divided into two samples. The first one is an immediate response of positive or negative. If positive, the other sample will be sent off to a lab for further testing. This further ensures that there is not a false positive result. It will take about 2 days to get those results back. If that is also positive then the parents/guardians will be notified.
3. Will the parents/guardians be called the day of the test or before my child is tested? There was nothing in the policy that pertained to that and C.A. Counts did say they could put that in the policy; however if the parents were not able to get off work, etc and come up to the school in the appropriate time then the testing would resume. Parents seemed to agree with that decision.
4. Who is doing the testing and where? The testing is done by a company out of Portageville. It is a man and woman and they do the testing for a majority of the schools in this area and are well experienced with the bootheel and the policies in many of the schools. The name of the company is BCS, Bootheel Collection Specialist.
5. What if the test is positive and I want my child retested? Retesting can be done at the expense of the parents and the test must be performed within a certain time frame. For example if the other test comes back within 2 days, another sample needs to be taken that day. However it was reassuring to know that false positives are very rare in drug testing at the lab facility level.

With far too much at stake when it comes to the lives of any student, or student athlete, we must make a commitment to the health and well being of each child, and help to educate them not only to the long-term dangers of illegal drug use, but the short term dangers as well.

It is in the best interest of the schools, athletic departments, coaches, teammates and parents of these individuals who may be tempted by illegal drug use to make them fully aware of the inherent risk of use. The problem needs to be combated and not just brushed aside.

Below is the complete Dexter High School Student Chemical Abuse Policy:

Student Chemical Abuse

The Dexter R-XI School District recognizes that student drug abuse is a significant health and safety problem for schools. Among the problems, substance abuse negatively affects students' health, behavior, learning, reflexes, and the overall development of students, including those participating in extracurricular activities. Chemical abuse includes, but is not limited to, the use of illegal substances, substances represented to be controlled, and misuse of legal drugs, and medications.

The purpose of the Dexter R-XI Chemical Abuse Policy include:

1. To establish standards of conduct for district students.
2. To identify students who are misusing drugs so that intervention plans can be implemented by home and school.
3. To establish a safe environment for student athletes during competition and generally for all students.
4. To provide a vehicle for parents to become aware of chemical abuse problems involving their children so that corrective action may be taken.
5. To provide referrals for students who need evaluation and counseling.
6. To deter chemical abuse or misuse by all students.
7. To send a clear message that the District is committed to eliminating student chemical abuse and to help students experience chemical abuse and to helping students experiencing chemical abuse problems.
8. To work cooperatively with the parents by assisting them in keeping their children free from chemical abuse.

It is not the purpose or intent of the District's Chemical Abuse Policy to identify students for punishment under the District's discipline code of conduct.

This program does not affect other policies and practices of the District, which deal with drug possession or use where reasonable suspicion is obtained by means other than random sampling provided in this policy.

Random Drug Testing

Participating in MSHSAA related extracurricular activities is a privilege that carries the responsibility to adhere to high standards of conduct, including refraining from the use of illegal drugs, anabolic steroids and alcohol. To assist students in making healthy and safe choices, the district will conduct random drug testing of students in grades 7 - 12 as a condition of participation in those MSHSAA related sports or activities.

Prior to a student's participation in a MSHSAA related sport or activity, the school will require the attendance of all potential participants and a custodial parent or guardian at one drug awareness session. At the session, each student and parent/guardian will receive information about the problems of drug use and will be advised of the requirements that all participants will be subject to random drug tests. Each student will also receive information regarding the method of testing to be used in the program. During each session, parents and students will have the opportunity to ask any questions, they may have regarding the program.

At the conclusion of each session, students who wish to participate in any MSHSAA related sport and or activity (Band, Choir, Speech/Debate, Scholar Bowl) and their parents will be required to sign a form indicating their attendance at the mandatory education session and agreeing to participate in the random drug testing program. This consent form will be kept on file in the drug testing coordinator's office (At this time it is Aaron Pixley, AD). **Students who fail to return a fully completed consent form will not be eligible to participate in MSHSAA related extracurricular activities.**

Selection Process

Once a student is listed as an eligible participant for a MSHSAA related extracurricular activity, that student will be subject to random drug testing for a year until the start of the following season/school year. If a student continues to participate the following season/school year, they will remain subject to random drug testing according to this Policy. Other than when the initial consent form is completed, the consent form must be updated when students enter 9th grade.

The District's drug testing coordinator will review the list of participants and update the list before each random selection is done. Each participant will have an assigned number that is a unique identifier for that student. The drug testing coordinator will keep the cross-reference log showing each name and number confidential. Utilizing the drug testing company's selection process, the district will inform them of how many tests are to be drawn from the list of numbers on the cross referenced list. The random selection process will result in an equal probability that any participating student could be chosen, both during season or out of season.

Testing

The superintendent, assistant superintendent and/or activities director will determine the dates for testing. Once the test pool has been selected randomly by the selection process, students will be escorted by the drug testing coordinator, along with the drug testing company to a restroom or a locker room where a urine sample will be obtained. Samples may be tested for THC/marijuana, benzodiazepines, cocaine/benzoylecgonine, amphetamines, barbiturates, phencyclidine, methamphetamine, opiates/morphine, alcohol, and anabolic steroids. Samples will not be screened for the existence of any physical conditions other than prohibited drug or alcohol use.

Medical Treatment

In the event a student has a positive test and is being treated by a physician, the student's parent/guardian may provide proof of such treatment. There will be no consequences to the student for the positive test, provided the student's positive test is solely for a controlled substance prescribed by his or her physician.

Confidentiality

Appropriate steps will be taken to respect the privacy of students while, at the same time, preventing falsification of testing. The test results will remain confidential and will only be released to the student, his or her parent(s)/guardian(s) and approved school officials. In addition, the test results will not become part of the student's permanent record/transcript. All files regarding the participants in the program, as well as test results, shall be kept strictly confidential and will be kept separate from the mandatory school files required for each student. If the student tests positive, the results will only be used to determine eligibility for participation in covered extracurricular activities.

Consequences

Upon the occurrences of the first positive test, the Building Principal and Activities Director will schedule a conference with the student's parent/guardian to explain the results. Counseling, at the student's expense, will be strongly recommended for every student who tests positive. The consequences are as follows:

Refusal by a student to be tested when randomly selected will be considered by the district to be a positive test result and will subject the student to consequences as outlined within this policy.

First Offense - Exclusion from all covered sports or activities for a minimum of 28 school days and must pass a drug test at the expense of the student/parent, prior to

Agreements Ease Transfer for Three Rivers Nursing, Education Grads to Southeast

OCTOBER 24TH 2017 BY DEE LOFLIN

[Agreements Ease Transfer for Three Rivers Nursing, Education Grads to Southeast](#)

Southeast Missouri State University and Three Rivers College (TRC) officials signed articulation agreements Oct. 19 paving the way for a seamless transition for Three Rivers Associate of Applied Science in Nursing graduates into Southeast’s online RN-BSN program and for Three Rivers Associate of Arts in Teaching graduates to transfer into five Southeast Bachelor of Science in Education programs.

Under the nursing articulation agreement, a slate of 15 100- to 200-level courses taken at Three Rivers by Associate of Applied Science in Nursing students, now will fulfill the requirements for the lower level University Studies (general education) requirements at Southeast, easing their transfer to Southeast's online RN-BSN program. The education articulation agreement signing eases the transfer for students from TRC's Associate of Arts in Teaching to Southeast's Bachelor of Science in Education programs in early childhood education with elementary education add-on certification; elementary education with middle school language arts add-on certification; exceptional child education with elementary education add-on certification; elementary education; and middle school education.

“We are so pleased to partner with Three Rivers College on these agreements,” said Dr. Carlos Vargas, president of Southeast Missouri State University. “Southeast's online RN-BSN program recently was recognized by College Choice among the nation's best online RN-BSN programs, and just last week, Southeast's College of Education was named an Apple Distinguished School. Southeast Missouri State University is delighted these collaborations will simplify the path for students to advance their education at Southeast in these outstanding programs as they prepare to launch extraordinary careers in education and the healthcare industry.”

Dr. Wesley Payne, president of Three Rivers College, added, “We're proud to be able to continue working with Southeast Missouri State University to create better opportunities, and greater availability of education, for the people in our region. This agreement will make it easier for nurses across our region to continue their education and improve their skills, and will support healthcare in southeast Missouri in the process.

“We're also pleased to sign an agreement which will make the transfer of students from our Associate of Arts in Teaching programs to Southeast's Bachelor of Science in Education programs even easier,” Payne added. “Education is the lifeblood of the region, and we're committed to helping provide excellent teachers to southeast Missouri.”

“Two areas of study in higher education that continue to be in demand in this region are health care and education,” said Dr. Justin Hoggard, Dean of Instruction at Three Rivers College.

“The articulation agreements signed Thursday in nursing, as well as the AAT in Education, underscore the commitment of both institutions to continue to provide quality educational opportunities for students close to home,” he said. “This means more professionals in high-demand career fields will be available for employment in southeast

Missouri.”

Dr. Diana Rogers-Adkinson, dean of Southeast’s College of Education said the education articulation agreement allows students to complete Southeast education degrees on the Three Rivers campus, giving students the opportunity to save money by studying locally while still attending an award-winning program.

Similarly, Dr. Gloria Green, chair of Southeast’s Department of Nursing, said the nursing agreement allows students to complete a bachelor’s degree with a minimum amount of additional coursework and in a program recognized for excellence.

“They have the flexibility of an online program, and the assurance of an RN-BSN program of superior quality, fully accredited by the Commission on Collegiate Nursing Education (CCNE),” she said.

Dr. Staci Foster, Chair of Nursing and Allied Health at Three Rivers College, said, the nursing articulation agreement signed Thursday “will be a benefit to students in all of Three Rivers’ nursing programs because it provides a clear, convenient pathway to a BSN degree without ever having to leave the region. You can now get your start in healthcare through our affordable, high-quality RN programs in Poplar Bluff or our LPN-RN Bridge programs in Poplar Bluff and Sikeston, then make the jump to a four-year degree without leaving your hometown.

“In addition to providing career opportunities for area residents, this is also a great boost to healthcare providers across the region,” she said. “They now have access to an even better pool of highly skilled nurses, trained right in their backyard, because of this partnership. We’re pleased to work with Southeast Missouri State University to provide this support to our students, local healthcare providers, and the patients they serve.”

Southeast’s nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE). Students can finish their Bachelor of Science in Nursing (BSN) at Southeast online in as little as one year if all their general education is completed at Three Rivers College. Southeast courses are taught by qualified nursing professionals, and field experiences are tailored to students’ specific interests.

To be admitted to Southeast’s RN-BSN program, Three Rivers students must have a current RN licensure, a minimum cumulative 2.8 grade point average and completion of Chemistry, Anatomy & Physiology, English Composition II and all required documentation through CastleBranch as outlined in the RN-BSN Handbook at

<http://www.semo.edu/pdf/Nursing-RN-BSN-Handbook.pdf>. A minimum of 30 credit hours must be taken in residence at Southeast. Thirty-nine upper-division credit hours at or above the 300 level are required for graduation, Southeast officials said.

Southeast educator preparation programs are accredited by the National Council for the Accreditation of Teacher Education (NCATE) and the Missouri Department of Elementary and Secondary Education (DESE)

For more information or to inquire about conditional admission into Southeast's online RN-BSN program, contact Southeast Online at (573) 651-2766 or southeastonline@semo.edu. For information on Southeast College of Education degree programs, call (573) 651-2123 or coe@semo.edu.

For information on the nursing and education programs at Three Rivers, as well as information on enrolling and other programs, call 877-TRY-TRCC (877-879-8722) or visit trcc.edu.

Pictured: Dr. Carlos Vargas, President of Southeast Missouri State University, and Dr. Wesley Payne, President of Three Rivers College, sign an agreement that will smooth transfers between Three Rivers' Nursing and Associate of Arts in Teaching programs to Southeast Missouri State University's Bachelor of Science in Nursing and Bachelor of Science in Education programs.

Dexter R-XI School Board Meeting Minutes from Tuesday, October 17, 2017

OCTOBER 24TH 2017 BY DEE LOFLIN

Dexter R-XI School Board Meeting Minutes from Tuesday, October 17, 2017

Dexter, Missouri - The Dexter R-XII School Board met at their regularly scheduled meeting on Tuesday, October 17, 2017 at 6:00 p.m. Below are the minutes from that meeting.

1. Call to Order/Roll Call/Pledge
2. The Board President announced the meeting is to begin, ascertains the attendance status of all board members with everyone being present.
3. He then leads in the saying of the Pledge of Allegiance.
4. Consent Agenda: The Consent Agenda was approved.
5. Public Comments: There were no public comments made.
6. Old Business:

The board approved the final version of the district drug testing policy after the district received legal counsel concerning the policy.
7. New Business:
 - A. The board approved the A+ Report for the 2016-17 school year.
 - B. The board approved the 2017-18 Assessment Plan as presented by Dr. Williams.

C. The board approved the purchase of a 2006 Chevrolet Commercial Box Van.

8. Discussion Items:

A. Mr. Counts discussed the district's policy provider. The board voted to switch to MCE policies for the 2018 school year.

B. Mr. Counts informed the board the Veterans Day program is scheduled for November 10th at 9:30.

C. The nurses report provided by Linda Milam, was shared with the board by Mr. Counts.

D. The building principals gave their reports to the board.

E. Mr. Counts reported to the board on the district's enrollment at this point in the year.

F. The November board meeting was set for November 21, 2017 at 6:00.

In Closed Session:

1. The board employed the following substitutes teachers for 2017-18: Jamie Jones and Rhonda Lane
2. The board approved the following retirement letters effective at the conclusion of the 2017-2018 school year: Connie Heil and Teresa Kapelski

The board approved the following resignations effective Dec. 15, 2017: Tate Midkiff and Victoria Sayre

Items presented to the board for informational purposes for future meetings or for discussion include:

None at this time

Central Elementary Releases 5th Grade Honor Roll for 1st Quarter

OCTOBER 23RD 2017 BY DEE LOFLIN

Central Elementary Releases 5th Grade Honor Roll for 1st Quarter

Dexter, Missouri - Central Elementary School announced their 2017 1st Quarter Honor Roll students for 5th grade. Students must maintain a B average to be on the Honor Roll each quarter.

Making the honor roll is not as easy as one might think. Central Elementary students who are high achievers acquire and develop excellent study habits and skills, especially in time management.

Successful, lifelong learners set aside a time and a space every day to do their homework. Student who can manage their daily workload have a better chance of attaining academic success.

Below are the following 5th grade Honor Roll students in alphabetical order:

AVEREE ACKMAN, LANDON AKRIDGE, ERIC AVERY, EVAN AVERY, RANDELL BECK, CAMERON BELL, LUKE BISHOP, LAWSON BLOCKER, ELIZABETH BOLIN, TESSLA BONER, BROOKLYN BOYER, ANNALISA BRADLEY, COOPER BUCHANAN, MADISON CAREY, KATI CARRILLO, CHRISTIAN CHAPPELL, BENJAMIN CHRISTIAN, CHRISTOPHER CRADER, and AUDREY CULP.

MONTANA DAVISON, RYLEE DAWSON, BENJAMIN DOWDY, BROOKLYNN FRANKLIN, ETHAN GLAUS, RYAN GOODE, KIERA GOODMAN, CHRISTIAAN HAASBROEK-WIRZ, LYDIA HANNER, JONATHAN MICHAEL HARRIS, PEYTON HARTLINE, MARLIE HATTON, KAYLYNN HAWS, AUNDREA HERNANDEZ, KASMIRA HESTER, KAYLEA HODGE, MAKAYLA HOOK, JAMES JACKSON HOWARD, SOPHIA JAMES, ANNEY JAYNES, KINSEY JELINEK, RYAN KAUFMAN, KINLEY KENNEDY, KENADY KRAPF, and THOMAS LEE.

PUJA S MAISURIA, RICARDO MARTINEZ, ASHLEY MCCOY, KAYLEY MCCOY, LEE-MICHAEL MCDONALD, MAGGIE MCMILLION, CARLY MCMUNN, FISHER MENLEY, OWEN MILLER, ZOE MINKS, BRYDEN MOORE, JUSTIN MURPHY, KATELYN NICHOLS, FAITH RENEA OLSEN, JAKE WILLIAM PAINE, JOSEPH PASSLEY, EMMA PENNINGTON, ISABELLA PITTMAN, DREXLER POPE, ADELINE PRANCE, and LOGAN PULLUM.

SAWYER RASCHER, AVERY RILEY, CALE ROBINSON, LUCAS ROGERS, KAYLEE RUTLEDGE, LAYTON SHAFER, ALEXIS SISK, KAYLEA SMITH, RHYLEY SPENCER, HADEN STAFFORD, CAROLINE STONE, FAIRYANN SURGEON, MADISON SUTTON, KOLTEN TELLMAN, TUCKER TEMPLES, CHLOE TINNIN, ESSABELLA VOSS, KAILEIGH WALLACE, KYLEE WARNER, THAIS WATERS, CALI JONES WHITE, KORBIN WILLIAMS, COOPER WORLEY, and FEBE CHANEL WORLEY.

Central Elementary Releases 4th Grade Honor Roll for 1st Quarter

OCTOBER 23RD 2017 BY DEE LOFLIN

Central Elementary Releases 4th Grade Honor Roll for 1st Quarter

Dexter, Missouri - Central Elementary School announced their 2017 1st Quarter Honor Roll students for 4th grade. Students must maintain a B average to be on the Honor Roll each quarter.

Making the honor roll is not as easy as one might think. Central Elementary students who are high achievers acquire and develop excellent study habits and skills, especially in time management.

Successful, lifelong learners set aside a time and a space every day to do their homework. Student who can manage their daily workload have a better chance of attaining academic success.

Below are the following 4th grade Honor Roll students in alphabetical order:

LANDON BLAYKE ANNESSER, CARSON ANTHONY, DAWSON BATTLES, MERIDETH BENTON, CHARLENE BESS, GABRIEL BESS, EMILY BOLIN, TAYLOR BONER, GIBSON BOOKER, CADENCE BUENAVENTURA, KARIE ALEXANDRA BURTON, OLIVIA CALCAGNO, TANNER CALDWELL, MATTILYNN CARLSON, SERINA CHURCHILL, EMMELIA CLIFF, CALI

COMFORT, BRITNEY COOPER, DESTANY CURETON, and BRANDI CURRAN.

RYAN COLE EATON, KLAIRE ESSNER, BRAILYN EVANS, ALEXIS EZELL, CALEB FARMER, DAWSON LUKE FICHTEL, ERIN FICHTEL, XAVIER FISCHER, KEELEIGH FLANIGAN, LOGAN FRITCH, ALEXIS MARIE GALLOWAY, ALEXIS GEARY, JADYN GOODMAN, SARAH GRANGER, DEXTER GREEN, SHAWN HARP, ALLYSON HAWKINS, RILEE HAYES, WYATT HICKMAN, CONNER HILL, JOHN HILL, WYATT HOCKERSMITH, SARAH HUDSON, PATRICIA JOHNSON, RYLEE KELLEY, KARIS KENNEDY, LEVI KESTNER, CAMERON TYLER KING, JAXON KING, ADDISON LACY, CARTER LACY, LANDEN LACY, NOLAN LACY, and AUSTIN LASATER.

JAYLYN LINDEMANN, HANNAH MACLIN, LOGAN MARTIN, RILEY JAMES MASON, ADDISON MCCORD, NATHANIEL MATTHEW MCVEY, AVERY MEDLEY, EVANIE MILLER, HALEY MILLER, ALEXIS MOORE, JACKSON MOORE, TRISHA MORRIS, CARSON MULLINS, ADRIAN MUNOZ, KENLI MUSGRAVE, MEREDITH NEA, HOUSTON NEELY, ELIZABETH CLAIRE NORRIS, SADIE NORTH, ETHAN PARISH, MALIA POLLEY, DEACON PULLEN, TARA PULLUM, and KILIE PYLE.

NAKITA RAY, DAVID RODRIGUEZ, AIREONA PAIGE ROPER, PRESTEN ROSE, JACOB RUPPEL, EMMA SADLER, AVA SCHAEFER, ELI SCOTT, JOHN SEPULVADO, JONAS SHOEMAKER, BRITTON CHAD SIMPSON, LAUREN SINDLE, LEVI SMART, ASHLYNN STANLEY, CARTER STONE, NICHOLAS STONIS, JERIDAN SWAIN-GOODMAN, KELBY TERRY, MATTIE THOMPSON, LUCY THORNTON, RHETT WAMBLE, JEREMIAH B WELLS, ELIJAH WHITEMAN, ALLISON WILLIAMSON, and KIRA WINTERS.
