SoutheastHEALTH of Stoddard County Provided FREE Athletic Physicals

MAY 16TH 2018 BY DEE LOFLIN

SoutheastHEALTH of Stoddard County Provided FREE Athletic Physicals

Dexter, Missouri - Over 230 students took advantage of the free athletic physicals provided by SoutheastHEALTH of Stoddard County on Thursday, May 10, 2018.

Each year, SoutheastHEALTH provides physicals to area middle school and high school athletes for the upcoming year.

Pictured are Cory Blocker, CPNP of SoutheastHEALTH Pediatrics with student athlete, Jackson Allen of Dexter High School.

Photo submitted.

SoutheastHEALTH Foundation to Host Princess Tea 2018

SoutheastHEALTH Foundation to Host Princess Tea 2018

Cape Girardeau, Missouri - The Princess Tea, sponsored by the SoutheastHEALTH Foundation, is returning this year with enchanting sets, characters and features to amaze and entertain your little ones. Fifteen princesses will take part in this spectacular royal performance. Additionally, all of the little princesses will have the opportunity to sing, dance and mingle with Cinderella and her princess pals. Wendy Hayes, representative of Montgomery Bank, the event's presenting sponsor, will be on hand as the Fairy Godmother Emcee. Sweets and lemonade fit for a queen will also be served to the young royal highnesses and their court.

Individual tickets are \$30 each for open seating. Royal Tables with preferred seating are \$300 for a table of eight. New this year are Special Princess-Themed Royal Tables, each individually decorated with a particular princess's colors and favorite accessories. There are a limited number of these tables available at \$350 each. Proceeds benefit SoutheastHEALTH Pediatrics, OB and Neonatal Intensive Care units. Southeast Hospital was the first hospital in the region to establish neonatal intensive care services and is devoted to providing excellent and compassionate infant and pediatric care for all of our patients and their families.

The event will take place on Saturday, April 14, at the Osage Centre in Cape Girardeau. Two seatings are available at 10 a.m. and 2 p.m. with special surprises and activities planned throughout the event. Get tickets now at sehealth.org/princesstea and let your princess know she's the fairest in all the land on this special day.

SoutheastHEALTH Ambassadors Raise Funds to Award AEDs in 2018

MARCH 19TH 2018 BY DEE LOFLIN

SoutheastHEALTH Ambassadors Raise Funds to Award AEDs in 2018

The SoutheastHEALTH Ambassadors, an arm of the SoutheastHEALTH Foundation, recognize the importance of, and need for, additional AED devices in the region.

Last year, after meeting with the Cape Girardeau Fire Department to learn more about AEDs, the Ambassadors chose to raise money exclusively for the HeartStrong Fund of the Foundation. With money raised from fundraising efforts with the red wine and chocolate pairing the Ambassadors will purchase 10 AEDs and award them to local nonprofits through an application/greatest need process.

All AED grant forms received before August 10, 2018 will be eligible for consideration.

Priority is given to projects that focus on community health improvement and address the following:

Focus on disproportionate unmet needs by delivering care to the uninsured and underinsured

Focus on healthy environments and behaviors

Collaborative partnerships to ensure healthy communities

Measurement and evaluation should have measurable outcomes on health care in our community.

To apply **CLICK HERE.**

Open House Set for New Emergency Services, Behavioral Health Unit at Dexter

MARCH 01ST 2018 BY DEE LOFLIN

Open House Set for New Emergency Services, Behavioral Health Unit at Dexter

Open House Set for New Emergency Services, Behavioral Health Unit at Dexter

Dexter, Missouri - Southeast Health Center of Stoddard County will unveil a new Emergency Services and Adult Voluntary Behavioral Health Unit at an open house from 1

until 3 p.m. on Friday, March 2. The new Emergency Department is located adjacent to Southeast Medical Plaza at 1200 North One Mile Road in Dexter. The project also includes four ambulance bays and an update to the main hospital lobby.

Southeast's Emergency Services, which offers 24/7 service, has a critical role in providing emergent and life-saving care to individuals throughout Stoddard County. The project includes a total of 30,000 square feet and substantially increase the size of Emergency Services. Features include a new expanded entrance and family lounge, trauma room, cardiac room, obstetrics room, three exam rooms for behavioral health patients and four rooms for non-emergent healthcare needs.

The Adult Voluntary Behavioral Health Unit located on the second floor of the new addition includes 15 private patient rooms with full bathrooms along with areas for activities, group therapy, dining and visiting.

"The Emergency Services expansion will help meet the growing number of patients seeking care," said Southeast Health Center of Stoddard County CEO Sue Ann Williams. She noted that the original Emergency Department was built in the 1970s, before the infiltration of computers and electronic technology. The department, built to serve 7,000 patients annually, currently serves almost 12,000 patients annually. "With the new Emergency Services, we have double the number of treatment rooms, which means shorter wait times for patients and a better overall patient experience," Williams said. The new area also includes the latest technology which will benefit patients close to home.

Ken Bateman, President and Chief Executive Officer of SoutheastHEALTH, pointed out the project, largest ever at Southeast Health Center of Stoddard County, underscores the health system's commitment to Dexter and the surrounding region and also exemplifies the outstanding community support of the Regional Healthcare Foundation. The enhanced service offerings will provide 50 to 75 new jobs in Dexter and its surrounding communities.

The Adult Voluntary Behavioral Unit will replace the current unit at Southeast Hospital in Cape Girardeau and will allow a more centralized location for services, Bateman explained. "With its dedicated holding area for behavioral health patients within Emergency Services, there is the benefit of a safer environment for patients and staff." Approximately 650 behavioral health patients are treated by SoutheastHEALTH annually.

Bateman added that "as we continue to evolve our behavioral health program in Stoddard County, an outpatient clinic will be added to ensure ongoing follow-up care."

The new addition, The Norman Harty Pavilion, recognizes the many contributions made to the community and Southeast Health Center of Stoddard County by the late Norman Harty. The Dexter businessman and his wife, the late Billie Jean Harty, built a business empire in general contracting, explosive industrial blasting, nursing care facilities and First Commercial Bank branches in southeast Missouri. Their dedication to the Dexter community is exemplified by his generosity.

Architects for the Emergency Services and Adult Voluntary Behavioral Health Unit are Bates and Associates of St. Louis. Construction was overseen by Kiefner Brothers Construction of Cape Girardeau.

About SoutheastHEALTH

At SoutheastHEALTH, the region's premier healthcare system in southeast Missouri, our patients receive excellent care of the highest clinical quality, close to home. Within our network are more than 50 care locations in 14 communities, including hospitals, primary and specialty care clinics representing over 30 clinical specialties and extending care for patients in a four-state area. Learn more at SEhealth.org.
