November Athletes of the Month named

JANUARY 01ST 2019 BY DEE LOFLIN

November Athletes of the Month named

Poplar Bluff, Missouri - The Mules Booster Club has named Kiley Bess and Tyler Cline of Poplar Bluff High School the November Athletes of the Month, presented by Academy Sports + Outdoors.

Tyler, a senior basketball player, averages 13 points, four rebounds, three steals and two assists per game. He won MVP for the game at the Norm Stewart Classic held Saturday, Dec. 1, in Columbia. His grade point average was 10.7 for the first quarter of the school year, and 9.6 overall.

“Tyler has shown to be a young man of character, intelligence and talent,” his coach William Durden said. “Tyler is a relentless competitor and hard worker on the court and in the classroom. He displays the work ethic and leadership that every coach hopes for from his players. He does all of the little things to get the job done.”

Kiley, a junior basketball player, averaged 14.5 points and 7.2 rebounds per game during the recent SEMO Conference Tournament. She has already received six full-ride scholarship offers to National Collegiate Athletic Association Division 1 educational institutions. She is currently ranked 19th in her class with an 11.179 GPA.

“Kiley is growing into a great leader on and off the floor,” her coach John David Pattillo stated.

Foundation funds \$3.5K in teacher grants

JANUARY 01ST 2019 BY DEE LOFLIN

[Foundation funds \\$3.5K in teacher grants](#)

Poplar Bluff, Missouri - The Poplar Bluff School Foundation recently funded two 'innovative educational projects' valued at more than \$3,500 so students can collect data for NASA and participate in group activities using digital microscopes.

The foundation board unanimously approved the projects during a meeting held last month as part of the nonprofit's mini-grant program, which funds proposals based on merit above and beyond regular classroom budgets.

Board treasurer Emily Wolpers commented that Ashley DeBerry of the Middle School, the teacher over the NASA submission, went out of her way to receive a certification in Alabama over the summer; and new board member Bobbie Tinsley noted that 375 high school biology students would benefit from the microscopes.

DIGITAL MICROSCOPES

“Instead of using microscopes one at a time, it’ll be a shared experience,” PBHS science teacher Gretchen Pendley said upon receiving the device. “Students can have that ‘aha moment’ together.”

Pendley’s colleague, Karen Harris, added: “I’ll be able to point and show the students exactly what to find in an individual slide, as they’ll be able to look up at the projector and see what I’m seeing.”

The model, made by Wolfe, interfaces with a computer and projects high-resolution images on an interactive whiteboard. The microscopes can additionally create time-lapse video screenshots, the proposal explains.

The team of educators, also including Stephanie Hillis, plan to use the digital microscopes in January when they begin teaching photosynthesis in biology class. Students will follow along with the instruction on regular compound microscopes already available in labs.

GLOBE CLASSROOM

NASA-grade meteorology equipment—including a rain gauge, barometer, hygrometer, infrared thermometer and pH test strips—will be used by Middle School students in DeBerry’s fifth grade math and science classes come spring.

The GLOBE program will allow students to collect data for the region and enter it into the database to be made available to globe.gov visitors. “This is data that like,” DeBerry stressed, “NASA uses.

“Southeast Missouri will contribute and produce maps so data can be seen worldwide to gauge rain, average highs and lows, cloud coverage, temperature rating,” she continued.

DeBerry received her special training at the Marshall Space Center. Her principal, Dr. Brad Owings, noted that his favorite part about the new forged partnership with the National Aeronautics and Space Administration is that Poplar Bluff may be able to temporarily house a moon specimen under strict protocol. “We get to see moon rocks,” Owings exclaimed.

Teacher Gretchen Pendley points to cells on an aquatic plant leaf during her freshman advisory on Friday, Dec. 14, while student Hannah Tipton looks into the digital microscope and classmate Summer Worley observes the projection.

2019 DHS Winter Homecoming Candidates Announced

DECEMBER 18TH 2018 BY DEE LOFLIN

2019 DHS Winter Homecoming Candidates Announced

Dexter, Missouri - Dexter High School released the 2019 Winter Homecoming candidates. Winter Homecoming will be held on Friday, January 4, 2019. The boys basketball team will host the Woodland Cardinals. Game time is 6 p.m. beginning with the junior varsity.

The Homecoming Coronation will be held just before the start of the varsity game. Come early and get a seat! The Kickin' Cats Dance Team will perform at half-time of the varsity game and the DHS Jazz Cats will be on hand to play a few tunes throughout the evening!

The Lady Cats Basketball team chose Chaylea Mosby and Keirstan Keirse as their candidates.

The Wrestling team chose Rylee Boyer and Erica Parris.

The Boys Basketball team chose Abby Dorton and Blair Rogers.

The Kickin' Cats Dance Team chose Olivia Lacy and Hannah Smith.

The DHS Cheerleading Squad chose Rae-Ann Riddle and Hallie Keathley.

Pictured on the back row standing are Erica Parris, Hallie Keathley, Abby Dorton, Keirstan Keirse, Chaylea Mosby, and Rylee Boyer.

Front row from left to right are Blair Rogers, Rae-Ann Riddle, Hannah Smith, and Olivia Lacey.
