Southeast Missouri Behavioral Health's First Annual Prevention Summit a Success!

The Southeast Missouri Behavioral Health's First Annual Prevention Summit was a success!

The theme was "Bridging Communities and Coalitions". Coalition leaders and community members attended to learn about prescription drugs, suicide prevention, and Missouri marijuana laws.

The summit featured speakers, games, and informational booths.

Coalition leaders were recognized for their work in preventing substance misuse in their communities, and community members learned about the registered coalitions in their area.

Southeast Missouri Behavioral Health plans to host this Prevention Summit annually.
