2020 DHS Sports Spotlight Mason Keena

APRIL 23RD 2020 BY DEE LOFLIN

2020 DHS Sports Spotlight Mason Keena

Dexter, MO - Mason Keena is the 18 year old son of Paul and Melanie Keena.

He is the grandson of David and Betty Fleming and Melba Keena.

Mason is a member of Top 10%, National Honor Society, Student Council, Sr. Beta Club and Future Business Leaders of America. He has also played baseball, football and wrestling for the Bearcats.

When asked about his most memorable moments playing baseball, Mason said, "Playing every summer with my friends and winning State back-to-back years on the SEMO Spartans."

With the COVID-19 (Coronavirus Epidemic) Mason's spring sports baseball season was cancelled. "COVID-19 has affected my Senior year by requiring me to stay home and get a job. Take online classes and hang-up my Bearcat baseball uniform for good."

"Mason Keena is a kid that doesn't say much and always has a smile on his face," commented Drew Pixley, head baseball coach at Dexter High School. "He's a kid that has had to deal with so many injuries and illnesses and never once complained. I didn't get the pleasure to have him as a part of our baseball team last year (my first head coaching year) because he was battling Mono from wrestling season. We had a chat about that and both came to the conclusion that sitting out last spring to rest would be the best option for him moving forward. That was probably very hard for him because he is very competitive."

"Coming into this spring, it was a relief to know I would have a player like Mason that could play a few different positions and help mentor our young catchers. I feel like he was excited about the role he was going to take on especially the fact that he was going to pitch. We were looking forward to what this spring could have brought these kids."

"I feel terrible for all of the seniors," continued Pixley. "But I know that the senior group I would've had this spring would have battled their butts off. In reality, our team would've had to grind through this season, play smart, and look to multiple kids to carry this team. Mason Keena would have been one of those kids. He's dependable, works hard, and is very intelligent. I am sure going to miss having him next spring."

Mason's future plans after high school are to attend the University of Missouri - Columbia.

MSHSAA Board Approves Changes to Summer By-

Laws Decision

APRIL 17TH 2020 BY DEE LOFLIN

MSHSAA Board Approves Changes to Summer By-Laws Decision

MSHSAA Board Approves Changes to Summer By-Laws Decision opens door for possibilities to summer time contests

Columbia, Mo.- The Missouri State High School Activities Association (MSHSAA) Board of Directors voted to grant relief of portions of the MSHSAA By-Laws that include summer limits on contact between coaches and student-athletes, at its April meeting on Thursday, April 16th.

Dependent upon approval from local and state health officials, the MSHSAA Board voted to make the summertime dead period and the summer limits on contact optional for the summer of 2020. MSHSAA By-Law 1.5 requires member schools to establish a period of nine consecutive days beginning on a Saturday and lasting to the second following Sunday, in which no contact takes place between school coaches/directors of MSHSAA-sponsored activities and students enrolled in the member school, or who will be enrolled in the member school during the next school year.

With Thursday's decision, a school may choose to comply with this "dead period" or to allow teams to hold activities. This decision also relieves portions of By-Law 3.15.3 and 3.15.4, which limits teams to 20 days of contact during the summer. Member schools may allow teams to have more than 20 days of contact in which any coaching or instruction in the skills and techniques of any sport takes place.

"The abrupt changes that took place to our normal system of education this spring, have our schools pleading for access to students this summer," said MSHSAA Executive Director Dr. Kerwin Urhahn. "The membership asked about what possible flexibility and modifications to by-law restrictions that could be offered. If there is no local, state, or national clearance for safe contact with students, then any allowances dealing with summer will be moot. But, in an effort to be prepared for what we hope is possible, this action was taken to grant some relief for the member schools."

In other action, the Board of Directors voted to allow seniors to be viewed as enrolled students through the summer, which allows them to represent their high schools in summertime interscholastic competition. This relief of By-Law 3.15 is designed for this summer only.

“Hopefully, this will allow schools to play contests against other schools to provide closure and recognition for students and allow teams and kids to play together this summer,” said Urhahn.

At this point, no action was taken to alter any other sections of By-Law 3.15, or the fall no contact period (3.15.1.b) that is scheduled to take place between August 3, 2020 and August 9, 2020. All summertime activities remain optional for students, attendance or participation could not be required.

“The first thing that needs to be clearly understood is that all decisions about anything summer-related – be it contact, access, practice, games, conditioning, etc. - must first be approved, cleared and deemed safe by the CDC, State and Local Health Departments, the Governor, and local Mayors” Urhahn concluded. “The end of social distancing and ‘safe at home’ is still not clearly visible yet, and summer activities may not be possible due to the covid-19 pandemic and its own timeline.”

MDC Urges Drivers to Slow Down and Give Turtles a Brake!

APRIL 17TH 2020 BY DEE LOFLIN

MDC Urges Drivers to Slow Down and Give Turtles a Brake!

MDC urges drivers to slow down and give turtles a brake!

Turtles are crossing Missouri roads this spring looking for grub and a mate.

The Missouri Department of Conservation (MDC) encourages drivers to be cautious on the roads this spring and give turtles a brake! These reptiles are often hit by cars during the warmer months, but are at special risk this time of year because they are more active.

Common turtles spotted crossing Missouri roads include three-toed box turtles, ornate box turtles, and snapping turtles.

Turtles emerge from their burrows and begin the hunt for food and mates during warm and wet conditions, which can lead them to cross roadways, oftentimes resulting in their death. Thousands of box turtles are killed every year by vehicles.

Young males make up most of the travelers, sometimes wandering as many as six miles searching for territories and mates. Females are also crossing the roads in search of nesting areas.

Turtles are cold-blooded creatures and depend on external sources of heat to determine their body temperature. This explains why people see them on warm asphalt during cool, spring days.

Vehicles are one of the leading factors in box turtle declines, and MDC urges motorists to be cautious and slow down when they see a turtle in the road. If helping a turtle make it safely across, check for traffic and move the turtle across the road in the direction it is traveling.

Additionally, MDC encourages Missourians to leave turtles in the wild. Taking a wild animal, whether a turtle or other wildlife species, and keeping it as a pet normally ends in a slow death. Leave turtles in the wild, follow the speed limit, and keep your eyes on the road.

DID YOU KNOW: Most Missouri turtles can live up to 30 years, but the common box turtle can live up to 80, occasionally living more than a century.

2020 DHS Sports Spotlight Spencer Warren

APRIL 12TH 2020 BY DEE LOFLIN

2020 DHS Sports Spotlight Spencer Warren

Dexter, MO - Spencer Warren is a senior at Dexter High School and is the 18 year old son of Tim and Dawn Warren. He is on the DHS Golf Team.

His grandparents are Charles and Judy Nea and Sue Warren.

He is a member of DECA, and the Yearbook Club. He has participated in Fellowship of Christian Athletes, Sr. Beta Club, and Basketball during his high school career.

Spence received All-District Golf three years. Due to the COVID-19 (Coronavirus Pandemic of 2020) his senior spring sports season was cancelled. He was an All-Conference golfer for three year and State qualifier all three years. He was a Golf Season Medalist all three years as well and earned a SEMOBALL nomination his junior year.

When asked what his most memorable moment was during high school, he replied, "It was my junior year when my team won the District Title and whey we broke the school record during the Jackson Invitational."

Coach Eric Sitze said of Warren, "Spencer has had a great career at DHS. He has also been great to coach. Spencer is a hard worker, has a great personality and is a very talented young man."

"He has been a great leader for us and number one for three years. He respects the game so much. We hate that we didn't get to see what he and this team would have done this year. I will miss our one-on-one conversations and the interaction we shared on the golf course."

"Spencer will do great at the next level as he loves the game and is willing to do whatever it takes to get better and compete."

Spencer's future plans are to play golf at Calhoun Community College in Alabama.
