Lake Wind Advisory Issued Until 7 p.m.

MAY 09TH 2021 BY DEE LOFLIN

Lake Wind Advisory Issued Until 7 p.m.

Stoddard County, MO - The National Weather Service in Paducah, KY has issued a Lake Wind Advisory until 7 p.m. this evening. The Wind Advisory has been cancelled.

Affected Area

Portions of southeast Missouri, western Kentucky and southern Illinois

Description

...LAKE WIND ADVISORY IN EFFECT UNTIL 7 PM CDT THIS EVENING...
...WIND ADVISORY IS CANCELLED...

WHAT...Southwest winds becoming northwest 10 to 20 mph with gusts of 30 to 35 mph.

WHERE...Portions of southeast Missouri, western Kentucky and southern Illinois.

WHEN...Until 7 PM CDT this evening.

IMPACTS...Strong winds and rough waves on area lakes will create hazardous conditions for small craft.

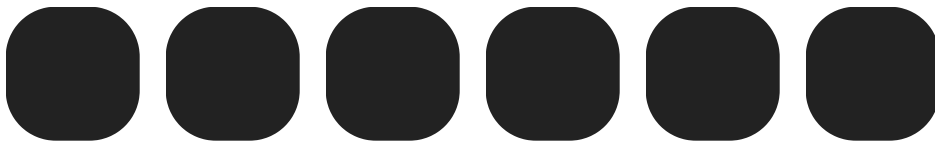

PRECAUTIONARY/PREPAREDNESS ACTIONS...

Boaters on area lakes should use extra caution since strong winds and rough waves can overturn small craft.

EF-1 Tornado Touches Down in Bollinger County

APRIL 29TH 2021 BY DEE LOFLIN

EF-1 Tornado Touches Down in Bollinger County

Bollinger County, MO - The National Weather Service in Paducah, KY announced today that an EF-1 Tornado did touch down on Wednesday, April 28th in Bollinger County, MO about 4.6 miles south of Patton. Winds peaked at 105 miles per hour. Property was damaged, but thankfully no one was injured.

Here are the details:

Rating: EF-1

Estimated Peak Wind: 105 mph

Path Length /statute/: 3.5 miles

Path Width /maximum/: 225 yards

Fatalities: 0

Injuries: 0

Start Date: April 28, 2021

Start Time: 2:50 PM CDT

Start Location: 4.6 miles S Patton

Start Lat/Lon: 37.4361/ -90/0159

End Date: April 28, 2021

End Time: 2:58 PM CDT

End Location: 3.8 miles SE Patton

End Lat/Lon: 37.4644/ -89.9658

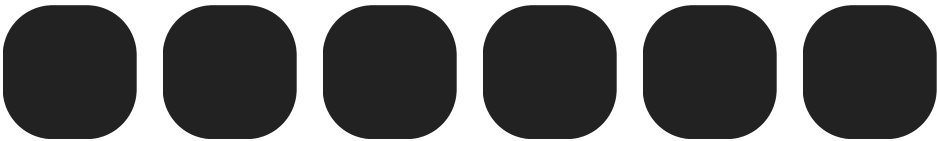

Damage was mainly to trees, with thousands of large trees snapped or uprooted. Near the beginning of the path, along Hwy M, south of Patton, a tractor trailer was overturned along with a smaller trailer and several farm items were blown around such as a fuel tank and planks. Extensive tree damage began by the time the tornado reached CR 346 with thousands of trees downed between CR 346 and MO- JJ Hwy. A small shed was blown away just south of MO-JJ where the tornado reached its maximum intensity and width. A mobile home lost some of its shingles and most of its underpinning as the tornado moved along and just north of MO-JJ. The tornado ended just northeast of the intersection of MO-JJ and CR 366 where it downed several mainly small trees and removed some shingles from a garage.

Photo not of the actual tornado.

Flash Flood Watch Issued for Stoddard County From 1 p.m. Through Thursday

Flash Flood Watch Issued for Stoddard County From 1 p.m. Through Thursday

Stoddard County, MO - The National Weather Service in Paducah, KY has issued at Flash Flood Watch.

Description

...FLASH FLOOD WATCH REMAINS IN EFFECT FROM 1 PM CDT THIS AFTERNOON THROUGH THURSDAY EVENING...

The Flash Flood Watch continues for

Portions of southern Illinois...southwest Indiana...western Kentucky and southeast Missouri, including the following areas, in southern Illinois, Alexander, Edwards, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jefferson, Johnson, Massac, Perry IL, Pope, Pulaski, Saline, Union, Wabash, Wayne IL, White and Williamson. In southwest Indiana, Gibson, Pike, Posey, Spencer, Vanderburgh and Warrick. In western Kentucky, Ballard, Carlisle, Crittenden, Daviess, Henderson, Livingston, McCracken, McLean, Union KY and Webster. In southeast Missouri, Bollinger, Butler, Cape Girardeau, Carter, Mississippi, New Madrid, Perry MO, Ripley, Scott, Stoddard and Wayne MO.

From 1 PM CDT this afternoon through Thursday evening

There will be the potential for several rounds of moderate to heavy rainfall this afternoon through Thursday evening. Rainfall totals of 2 to 4 inches will be possible. Locally higher amounts cannot be ruled out. This watch is generally in effect for locations north of a line extending from Doniphan, Missouri to Paducah, Kentucky to Calhoun, Kentucky.

In addition to the flash flood potential of urban and rural areas, main stem rivers may also be affected out in time.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

Do not attempt to drive across water covered roads. If you come upon a flooded road, turn around and find an alternate route.

Southerly Wind Gusts near 35 MPH this Afternoon

APRIL 27TH 2021 BY DEE LOFLIN

Southerly Wind Gusts near 35 MPH this Afternoon

Stoddard County, MO - The National Weather Service in Paducah, KY has issued a Special Weather Statement for Stoddard County, MO.

...Southerly Wind Gusts near 35 MPH this Afternoon...

For residents and travelers across southeast Missouri and southern Illinois, look for occasional gusts near 35 mph. A few locations, especially in southern Illinois, may even see gusts to 40 mph.

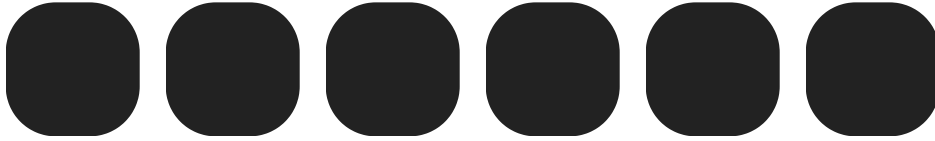

These gusts may cause difficulty for those driving on west to east oriented roadways with high profile vehicles. Some loose objects left outdoors may be tossed around.

In addition, if you are traveling out on area lakes and rivers, be watchful for the development of choppy waves and whitecaps on the water. This may impact your ability to control your watercraft safely.

The greatest likelihood of seeing gusty winds in excess of 35 mph will be from Noon through 5 PM CDT today. The winds should gradually diminish toward sunset.

Frost Advisory Issued for Stoddard County Wednesday Evening

APRIL 21ST 2021 BY DEE LOFLIN

Frost Advisory Issued for Stoddard County Wednesday Evening

Stoddard County, MO - The National Weather Service in Paducah, Kentucky has issued a Frost Advisory for Stoddard County from 11 p.m. Wednesday evening to 9 a.m. Thursday morning.

Affected Area

For the Freeze Warning, southwestern Indiana, southeastern Missouri, southern Illinois, and western Kentucky, except for most of the Pennyrite region and eastern parts of the Purchase area. For the Frost Advisory, the entire region

Description

...FREEZE WARNING REMAINS IN EFFECT UNTIL 9 AM CDT THIS MORNING...
...FROST ADVISORY IN EFFECT FROM 11 PM THIS EVENING TO 9 AM CDT
THURSDAY...

WHAT...For the Freeze Warning, sub-freezing temperatures as low as 29 degrees. For the Frost Advisory, temperatures as low as 31 will result in frost formation.

WHERE...For the Freeze Warning, southwestern Indiana, southeastern Missouri, southern Illinois, and western Kentucky, except for most of the Pennyrile region and eastern parts of the Purchase area. For the Frost Advisory, the entire region.

WHEN...For the Freeze Warning, until 9 AM CDT this morning. For the Frost Advisory, from 11 PM this evening to 9 AM CDT Thursday.

IMPACTS...Frost and freeze conditions will kill crops, other sensitive vegetation and possibly damage unprotected outdoor plumbing.

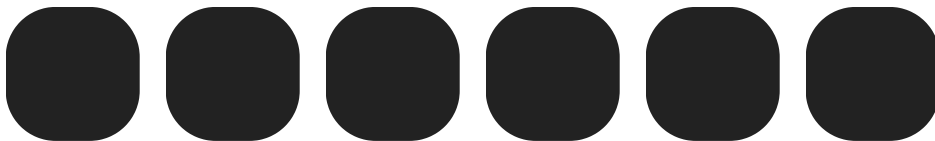

PRECAUTIONARY/PREPAREDNESS ACTIONS...

Take steps now to protect tender plants from the cold. To prevent freezing and possible bursting of outdoor water pipes they should be wrapped, drained, or allowed to drip slowly. Those that have in-ground sprinkler systems should drain them and cover above-ground pipes to protect them from freezing.
