Flood Watch Issued for Stoddard County, MO

DECEMBER 30TH 2021 BY DEE LOFLIN

Flood Watch Issued for Stoddard County, MO

Stoddard County, MO - The national Weather Service in Paducah, KY has issued a Flood Watch for Stoddard County, Missouri.

Description

...FLOOD WATCH IN EFFECT FROM FRIDAY EVENING THROUGH SATURDAY AFTERNOON...

WHAT...Flooding caused by excessive rainfall is possible.

WHERE...Portions of southern Illinois south of Interstate 64, all of southwest Indiana, western Kentucky, and southeast Missouri.

WHEN...From Friday evening through Saturday afternoon.

IMPACTS...Flooding may occur in poor drainage and urban areas. Low-water crossings may be flooded. Tornado debris in the affected areas of western Kentucky could impede drainage.

ADDITIONAL DETAILS... - Widespread rainfall amounts of 2 to 4 inches are expected, with locally higher amounts possible. - <http://www.weather.gov/safety/flood>

PRECAUTIONARY/PREPAREDNESS ACTIONS...

You should monitor later forecasts and be alert for possible Flood Warnings. Those living in areas prone to flooding should be prepared to take action should flooding develop.

More Information

.A slow-moving cold front will be preceded by a surge of tropical moisture, which will result in widespread heavy rainfall and likely some flooding problems.

Flood Watch Issued for Stoddard County

DECEMBER 17TH 2021 BY DEE LOFLIN

Flood Watch Issued for Stoddard County

Stoddard County, MO - The National Weather Service in Paducah, KY has issued a Flood Watch for Stoddard County.

Affected Area

Portions of southern Illinois and southeast Missouri, including the following areas, in southern Illinois, Alexander, Franklin, Hamilton, Jackson, Johnson, Pulaski, Saline, Union and Williamson. In southeast Missouri, Bollinger, Butler, Cape Girardeau, Carter, Perry MO, Ripley, Scott, Stoddard and Wayne MO

Description

...FLOOD WATCH IN EFFECT THROUGH LATE TONIGHT...

WHAT...Flooding caused by excessive rainfall is possible.

WHERE...Portions of southern Illinois and southeast Missouri, including the following areas, in southern Illinois, Alexander, Franklin, Hamilton, Jackson, Johnson, Pulaski, Saline, Union and Williamson. In southeast Missouri, Bollinger, Butler, Cape Girardeau, Carter, Perry MO, Ripley, Scott, Stoddard and Wayne MO.

WHEN...Through late tonight.

IMPACTS...Excessive runoff may result in flooding of rivers, creeks, streams, and other low-lying and flood-prone locations. Flooding may occur in poor drainage and urban areas. Low-water crossings may be flooded.

ADDITIONAL DETAILS... - Multiple rounds of heavy rain will be possible late this afternoon and overnight, especially where thunderstorms repeat over the same locations. Rain totals of 2 to 3 inches are expected in many locations. Locally higher amounts of 3 to 5 inches cannot be ruled out. - <http://www.weather.gov/safety/flood>

PRECAUTIONARY/PREPAREDNESS ACTIONS...

You should monitor later forecasts and be alert for possible Flood Warnings. Those living in areas prone to flooding should be prepared to take action should flooding develop.

Hazardous Weather Outlook for Stoddard County for Tonight

DECEMBER 10TH 2021 BY DEE LOFLIN

Hazardous Weather Outlook for Stoddard County for Tonight

Stoddard County, MO - The National Weather Service has issued a Hazardous Weather Outlook for this evening in Stoddard County, Missouri.

...Storms with Damaging Winds and Tornadoes Possible This Evening and Overnight...

This Hazardous Weather Outlook is for portions of southern Illinois, southwest Indiana, western Kentucky, and southeast Missouri.

.DAY ONE...Today and Tonight

An organized outbreak of severe thunderstorms is possible starting this evening and continuing overnight. The main hazards will be damaging winds and tornadoes, including the potential for a couple of strong, destructive tornadoes.

Thunderstorms are expected to develop by late today into the early evening across southeast Missouri and southern Illinois and possibly far west Kentucky, then continue through the overnight hours across southwest Indiana and the rest of western Kentucky. Conditions will be favorable for damaging winds and tornadoes along a broken line of storms, and a couple long-track tornadoes are possible.

Outside of thunderstorms, strong gradient non-thunderstorm wind gusts of 30 to 40 mph are possible this evening into early Saturday morning.

SPOTTER INFORMATION STATEMENT...

Spotter activation will likely be needed this evening and overnight.

Special Weather Statement Issued for Stoddard County - Potential Isolated Thunderstorms and Hail

DECEMBER 01ST 2021 BY DEE LOFLIN

Special Weather Statement Issued for Stoddard County - Potential Isolated Thunderstorms and Hail

Stoddard County, MO - The National Weather Service in Paducah, KY has issued a Special Weather Statement for Stoddard County.

...Isolated thunderstorms expected today, with a few storms producing small hail...

An impressive early December weather disturbance will move across the Quad State region today.

There appears to be enough cold and unstable air aloft with this disturbance to generate a few thunderstorms as the system moves through the area.

Although the thunderstorms are expected to remain below severe limits, a few of the thunderstorms may generate some very small hail.

Rainfall associated with this fast moving weather system will remain quite light, generally a tenth of an inch or less.

The entire weather system should move east of the Quad State region by sunset today.
