Groundbreaking Ceremony to be Held at Boon Park in Dexter

Dexter Friends of the Park committee is very excited to announce that the city of Dexter has been awarded a matching grant from the Land and Water Conservation Fund, provided by the National Park Service as well as the Missouri Department of Natural Resources. This grant along with your generous donations will allow construction to begin on the Boon Park Universal Playground!

On Thursday, June 30, 2022 they will hold a groundbreaking ceremony at Boon Park at NOON!

Everyone is invited to attend and celebrate this milestone. Local officials and community members will be on hand to answer any questions you may have regarding the project or grant.
