Mercy Continues Tradition of the Golden Angel Tree Program

Mercy Stoddard Hospital continued its tradition of blessing local nursing home residents with Christmas gifts through its Golden Angel Tree program, which displays the residents' wish lists on a Christmas tree for caregivers then to select and purchase.

This year, 83 residents from eight facilities were nominated by their nursing home staff. This outreach tradition began more than 30 years ago with Mercy Stoddard nursing staff and has since grown. In the spirit of Mercy, Mercy Stoddard caregivers were excited to answer the call of service and spent the past two weeks preparing their gifts for distribution.

Pictured are: Mercy Stoddard co-workers and caregivers with all the Christmas gifts they purchased for local nursing home residents as part of their Golden Angel Tree program.
